MINUTES OF THE REGULAR MONTHLY MEETING OF
YMD JOINT WATER MANAGEMENT DISTRICT
BOARD OF COMMISSIONERS
JUNE 15, 1994
ALUMNI BUILDING, DELTA STATE UNIVERSITY
CLEVELAND, MS

The Board of Commissioners of the YMD Joint Water Management District held their monthly meeting on Wednesday, June 15, 1994, with all Commissioners present except Greene Blythe of Desoto County, Frank Gwin of Holmes County, Reece Makanson of Leflore County, and David Hays of Panola County.

Chairman Don Aylward explained that due to the absence of a quorum at the May meeting that motions made at that meeting must be ratified. Commissioner Sykes Sturdivant moved to approve and ratify all official actions taken by the Board at the May, 1994 Board meeting. Commissioner Ross Story seconded and all Commissioner present voted "Aye".

The May minutes were reviewed. There being no additions or corrections, Commissioner Sykes Sturdivant moved to approve the minutes as submitted. Commissioner Sam Allison seconded and all Commissioners present voted "Aye".

Ms. McGaugh then presented the financial report. The District received \$16,960.74 from the counties during the month of May. At the end of May, the District had \$449,483.41 in checking accounts and \$50,631.94 in certificates of deposits. The total cash in the checking accounts included loan proceeds. The following expenses were submitted for approval: Greg Belford; \$361.40, Dillard Melton; \$321.93, Mike Hendricks; \$429.58, Lena Wilson; \$47.56, Judith McGaugh; \$64.20, Beau Neill; \$106.20, Christy Lewis; \$30.98, Mark Stiles; \$77.50, Dean Pennington; \$398.79, Griffith and Griffith; \$1,236.14, Petty Cash reimbursement; \$ 1,961.94, and Accounts Payable; \$84,152.02. Commissioner Sykes Sturdivant moved to approve the expenses as presented. Commissioner Laurance Carter seconded and all Commissioners present voted "Aye".

Requested purchases were submitted and discussed. These items were discussed with the equipment committee. The requested equipment would not be purchased at one time, but rather spread out over the next few months. Although one computer is needed now, the other will be purchased for the planned computer assistant and the laser printer will not be needed until the office moves to Stoneville. This strategy would allow the District to purchase the latest technology available. Commissioner George Berry moved to authorize the Executive Director and the Purchasing Agent to proceed with taking the necessary action to purchase the following:

Laser Printer	\$1500.00
2 Computers and processor upgrades	\$9000.00
Mapinfo and Mapbasic Software	\$350.00

with such authorization to comply with all applicable public purchasing laws, including advertising for competitive bids to the extent required by law. Commissioner Laurance Carter seconded and all Commissioners present voted "Aye".

Dr. Pennington reported to the Board on the recent Groundwater Management Districts Association (GMDA) meeting. The GMDA serves as the groundwater branch of the National Water Resources Association (NWRA). The GMDA chose Dr. Pennington to be chairman of the

groundwater committee for NWRA. Pennington requested permission to accept that position explaining that it would require additional meetings each year. Commissioner Sykes Sturdivant moved to authorize Dr. Pennington to accept the position as GMDA representative to the NWRA. Commissioner George Berry seconded and all Commissioners present voted "aye".

The Board was informed that a Model Farm field day had been planned for July 7. The targeted audience will include the County ASCS Directors and county board members, the SCS District Conservationists and Soil and Water Conservation District board members and other selected agencies. A bass tournament will be held that morning on the farm to demonstrate how water quality and intensive farming can coexist. The field day will be paid for out of energy escrow funds. Commissioner George Berry moved to approve payment of expenses relating to the field day. Commissioner Ross Story seconded and all Commissioners present voted "aye".

Dr. Pennington disclosed that one of the topics discussed at the recent GMDA meeting was how water management district managers convey the plans and discuss the activities and goals of the district with their board members. One of the most common tools the other water districts use is active committees. Pennington suggested reorganizing YMD's committees and have them meet on a regular basis as a way to get more commissioner involvement. The committee structure would be similar the existing one with an emphasis on meeting more frequently for discussion. The Board suggested that the Chairman, Vice Chairman and Executive Director put in writing the types of committees being considered, what the responsibilities of the committees would be and the suggested members of the committees for their review. The Board discussed whether the YMD board must meet every month or if an executive committee make the monthly decisions with the full board only meeting quarterly. Attorney Griffith agreed to check into the options available.

Dr. Pennington told the Board that YMD staff met with Office of Land and Water (OLW) staff to review the new water use permit form. YMD suggested a few minor changes and OLW was receptive to most of them. Pennington noted that OLW did not agree to put YMD's name and address on the form even though most of the permits should be returned to YMD. He also explained that because of the different capabilities between Land and Water and YMD, there was a difference of opinion on how to renew permits. OLW plans to photo copy existing information and send out new forms while YMD would prefer to supply the permit holders with a computer printout of the permit information and only ask for corrections. Dr. Pennington acknowledged the necessity of discussing this matter more thoroughly with Charles Branch. The Board asked if any further step had been taken concerning changing the permit cost to cover the expense of repermitting. Pennington noted that more discussion with Jimmy Palmer will be needed. Attorney Griffith and Dr. Pennington will try to meet with Palmer before YMD's July meeting. The Commissioners also suggested pursuing the possibility of SCS assisting in defraying the cost of repermitting with some of the money designated for the project. They noted that the information gathered in the permitting process would be beneficial to the SCS water supply study.

Paul Rodrigue gave an update on the SCS water supply study. Rodrigue became the study leader position for the project on May 2. Earnest Faulkman was reassigned as the civil engineer for the project and will be working out of the Greenville field office until YMD's new office is completed. The clerical position will also be filled after the new office is completed. The State Conservationist position should be permanently filled in July. Rodrigue explained that once that person is appointed, some decisions can be made concerning where the study money will be spent. He predicted that it would be another couple of months before the complete staff is in place and the direction and focus of the study is set. The Commissioners expressed an interest in meeting

12

with Homer Wilkes, the acting state conservationist, to keep him informed of the project. Dr. Pennington agreed to arrange a meeting for some of the Commissioners and others to meet with Mr. Wilkes. Pennington also told the Board that Chip Morgan informed him that the money for this project has been included in the SCS requested funds for this year.

The Commissioners noted that the Mississippi Water Resources Association meeting held in May was a success. Jimmy Palmer spoke to the group and the Board expressed an interest in having him present the same talk at a YMD Board meeting.

A written summary of the permit applications processed by YMD during the past month was given to the Commissioners. Permitting Administrator Greg Belford reported that 31 applications were received during the month. All applications presented to the State Permit Board by YMD were approved.

Dr. Pennington informed that he was unable to attend the June Water Planning Council meeting because it was being held on the third Wednesday which conflicted with the YMD Board meeting. The council is still working on developing a state water management plan.

Dr. Pennington then reported on the Management Systems Evaluation Area (MSEA) program. He reminded the Board that the program would look at water conservation practices and the impact of those practices on water quality. This project is an outgrowth of the Beaver Creek, Tennessee project. He explained that 3 sites will be selected in southern Leflore and Sunflower Counties. Conservation practices will be installed on those sites. The directors from similar projects in Iowa, Nebraska, and Missouri met with Mississippi representatives yesterday and drove through the Delta from Memphis. Pennington predicted that the project would be getting started by the fall.

The Commissioners were told that YMD staff has been working with DEQ recently on a water quality sampling project. Beau Neill and Mike Hendricks have selected sites to take water samples from existing production wells in the Delta. The samples will be analyzed for pesticides. There will be 60 or 70 sites in Bolivar, Sunflower and Washington Counties sampled twice this summer resulting in 100 to 150 groundwater samples. An additional 10 to 20 sites will be located in other parts of the Delta. The emphasis will be on the alluvial aquifer. The project will continue next year with different counties sampled. The plan is to test the water quality throughout the entire Delta. This project is funded with pesticide registration fees.

The Board discussed proper abandoned well procedures. Dr. Pennington explained that getting the final procedure approved by involved agencies had taken longer than anticipated. Well abandonment has been included in ASCS cost sharing programs. However, due to the type of program, farmers will have to choose between whether to spend that cost share allowance on abandoning wells or laying underground pipe or other farm improvement items. Dr. Pennington explained that to keep the program active each year the farmers should notify their ASCS office of their interest in well abandonment.

Dr. Pennington told the Board that the National Water Quality Assessment Program (NWQA), the 5 year USGS program monitoring water quality in the Mississippi embayment, held their first advisory committee meeting on June 1 in Memphis. Beau Neill and Dean Pennington attended.

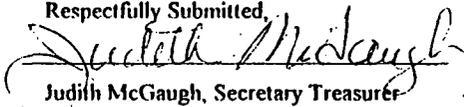

Dr. Pennington reported that a YMD newsletter had been prepared and will be mailed in the next few weeks.

Dr. Pennington discussed a potential project with Prudential Insurance Capital Ag Services. He explained that perhaps a cooperative program could be developed. The plan would be to assist Prudential as they develop new land. This would provide an opportunity to guide them in how to develop the land for improved water quality and water use efficiency. A record could be kept of how the land improvements changed water use and its effects on water quality. It would be an example of a private, public cooperative program that serves the needs of both.

The regular date for the July Board meeting would be the 20th but the Commissioners agreed to change the meeting date to accommodate vacation schedules. A date will be set and the Board members will be notified.

There being no further business to discuss, the meeting was adjourned.

Respectfully Submitted,

Judith McGaugh, Secretary Treasurer

YMD Joint Water Management District

Team owners

WASHINGTON — In the last five years, baseball's owners have thrown out their commissioner and been found guilty by an arbitrator of conspiring to keep the lid on free agent salaries.

This might suggest they have an image problem, and maybe a credibility gap — particularly when they claim 19 teams are losing money. Even so, interim baseball commissioner Bud Selig says there's no need for team owners to open their books to back up that assertion.

"We have opened the books to the players," Selig, owner of the Milwaukee Brewers, said Wednesday after a speech at the National Press Club.

When asked about the possible public relations benefits of proving to America that teams are losing money, Selig said:

"You'd have to tell me what purpose that would serve."

And with a players strike looming, Selig insisted that the owners will stick to an

Owners sticking together

EIL

ON — In the last five years owners have thrown out and been found guilty by a jury of conspiring to keep the lid on the industry. They suggest they have an image problem — a credibility gap — and claim 19 teams are losing. Interim baseball commissioner says there's no need for an owners' strike. He says they should get the books to the players of the Milwaukee Brewers, after a speech at the club. He says about the possible public proving to America that the owners are losing money, Selig said: "I can only tell me what purpose the owners will stick to."

their revenue-sharing plan, even though it could prompt the eighth work stoppage in 22 years. "There is no sense reviewing the history between the owners and the players," Selig said. "We are where we are today — 19 clubs are operating in the red. Together, we have to figure out a solution." Under the owners' plan, players, whose earnings now consume 58 percent of the sports' revenue, would be limited to 50 percent of baseball's income. This, Selig said, would allow the sport to grow, ultimately pushing salaries still higher. "If there's one thing (Players Association representative) Don Fehr and I can agree on, it's that there's a lot of potential (for growth) in a number of areas," Selig said. "Compensation ... can't go down — it can only go up. I'd rather have 50 percent of \$2.8 billion than 58 percent of \$800 million." Time and again, Selig talked about the 19 clubs that are in financial trouble, citing in particular Pittsburgh, San Diego and other small-market teams that he claimed are losing money.

However, owners have never backed those claims by opening their books, although some publicly held teams, like the Pirates, have indeed demonstrated that they are losing money. Selig angrily said that the owners have no intention of opening their books now, especially since they have already turned them over to the Players Association. "They have the numbers, and they're all audited financial statements," Selig said. "And I must tell you, in Kansas City, they believe the Royals, in Milwaukee, they believe the Brewers, and in Minnesota, they believe the Twins." However, Fehr has said that while he and other union officials are still studying the financial documents, they already have their doubts about the numbers the owners provided. And the owners' money-losing arguments are further weakened by the fact that baseball's revenues have grown an average of \$147 million annually since 1985, when the game took in \$625 million. Last season, the total was \$1.8 billion.

Statutory Debt Limits

The County is subject to a general statutory debt limitation under which no county in the State may incur general obligation bonded indebtedness in an amount which will exceed 15 percent of the assessed value of all taxable property within such county according to the last completed assessment for taxation.

In computing general obligation bonded indebtedness for purposes of this 15 percent limitation, there may be deducted all bonds or other evidences of indebtedness issued prior to July 1, 1978, for the construction of hospitals, ports or other capital improvements payable primarily from the net revenues to be generated from such hospital, port or other capital improvement in cases where such revenue is pledged to the retirement of the indebtedness, together with the full faith and credit of such county.

The total general obligation indebtedness of a county, both bonded and floating (including bonds excepted from the 15 percent limit above), may not exceed 20 percent of the assessed value of all taxable property within such county, but bonds issued for school purposes and industrial development bonds issued under the State's Balance Agriculture with Industry Program are specifically excluded from both the 15 percent limitation and the 20 percent limitation (but are subject to statutory limits applicable to bonds of each type, respectively). Bonds issued for washed-out or collapsed bridges apply only against the 20 percent limitation. Industrial development revenue bonds are excluded from all limitations on indebtedness, as are contract obligations subject to annual appropriations.

The 15 percent limit and the 20 percent limit set out above will revert to limits of 10 percent and 15 percent, respectively, after September 30, 1995, unless the debt limit statute is amended prior to such date.

Legal Proceedings

There are no pending legal proceedings which might be expected to affect the County's ability to perform its obligations to the registered owners of the Bonds.

Sovereign Immunity

In 1982, in Pruett v. City of Rosedale, the Mississippi Supreme Court (the "Supreme Court") abolished the judicial common law doctrine of sovereign immunity, effective July, 1984, and invited a legislative response by creation of statutory sovereign immunity.

In 1984, the Legislature enacted a tort claims act (the "Act") that gave statutory sovereign immunity to the State and its political subdivisions, and then provided for a limited and

124

capped waiver of that immunity, all to become effective in 1985; until 1985, the Legislature provided that the case law of sovereign immunity as it existed at common law prior to the Pruett decision would remain in effect.

From 1985 through 1992, the Legislature annually postponed the effective date of statutory sovereign immunity and extended for one year the continuation of the case law on sovereign immunity as it existed at common law prior to Pruett.

On August 31, 1992, the Supreme Court decided Presley v. Mississippi State Highway Commission, which declared unconstitutional Section 11-46-6 of the Act which continued the case law of sovereign immunity as it existed at common law prior to Pruett on the grounds that it violated Sections 1 and 144 (separation of powers) and Section 61 (enactment by reference) of the Mississippi Constitution. By a plurality vote the Presley Court said it intended to only apply this ruling prospectively; thus, common law sovereign immunity would still be a defense for claims arising on or before August 31, 1992, to the extent that it was a defense at common law prior to Pruett.

In response to Presley, the Mississippi Legislature enacted House Bill No. 2, 1992 First Extraordinary Session ("House Bill No. 2"), which was signed into law on September 16, 1992. This amendment to the Act provided for the immediate implementation of statutory sovereign immunity and granted authority to any political subdivision to obtain liability insurance to the extent such authority had not previously been granted. Political subdivisions were also granted discretion to pay the deductible amount, if any, contained in their liability insurance coverage.

On February 25, 1993, the Supreme Court appeared to further limit the effectiveness and scope of sovereign immunity in Churchill v. Pearl River Basin Development District. This decision held that the sovereign immunity defense had no application to claims based on the existence of an implied contract, which could arise wherever a governmental entity charged a fee for use of its facilities or services. The effect of Churchill was limited by the subsequent March 25, 1993, Supreme Court decision in Womble v. Singing River Hospital. In Womble the Supreme Court upheld the right of the Legislature to immunize the State and its political subdivisions from liability arising out of the breach of an implied contract where it clearly manifests its intent to do so. Although the statute construed by the Supreme Court in Womble only applies to community hospitals, identical language is found in Section 11-46-3, a part of the Act first adopted in 1984. Even though Section 11-46-3 had only prospective application until the passage of House Bill No. 2, it would still seem to be a clear manifestation of legislative intent.

125

The plurality ruling in Presley was called into question by dicta in the Churchill opinion and by the September 2, 1993, Supreme Court decision in Morgan v. City of Ruleville, which held that the only point of Presley which is precedential is that Section 11-46-6 is unconstitutional. Therefore, the possibility was raised that Presley could be applied retroactively. However, on January 27, 1994, the Court in Coplin v. Francis upheld the dismissal of a political subdivision on the grounds of sovereign immunity for a pre-Presley tort based upon the plurality opinion in Presley. Thus Presley is prospective only.

House Bill No. 417, enacted by the 1993 Legislature further revised Section 11-46-3 of the Act to even more explicitly provide immunity for the breach of an implied contract, and also purports to give that immunity retroactive application.

The Act, as amended, now provides as follows:

- Beginning October 1, 1993, for political subdivisions, the Act creates a broad statutory sovereign immunity for acts and omissions of governmental entities, whether governmental, proprietary, discretionary or ministerial, including for breach of an implied contract, and without regard to whether a fee, charge or other consideration was paid.
- The Act waives this statutory sovereign immunity up to certain maximum limits of liability, except for specified circumstances.
- The maximum liability arising out of a single occurrence is:
 - \$50,000 for claims arising on or after July 1, 1993, and before July 1, 1997;
 - \$250,000 for claims arising on or after July 1, 1997, and before July 1, 2001;
 - \$500,000 for claims arising on or after July 1, 2001.
- Attorney fees and punitive damages are not allowed unless otherwise specifically authorized by law.
- Trial of claims arising under the Act shall be conducted without a jury.
- A claimant must exhaust his administrative remedies before he files suit, and he must file within one year after the cause of action arises.

126

- Governmental entities and their employees acting within the course and scope of their employment shall not be liable for any claims under specified circumstances.
- On and after October 1, 1993, all political subdivisions must purchase liability insurance or set up self-insurance reserves sufficient to cover risks of claims under the Act.
- All governmental entities may purchase liability insurance in excess of the maximum liability and immunity shall be waived to the extent of the excess liability insurance.
- Any two or more political subdivisions may enter into agreement to pool liabilities through insurance or self-insurance reserves.

Under existing law, the defense of sovereign immunity would not be available to the County against a claim for payment, when due, of principal of or interest on the Bonds.

Approval of Legal Proceedings

All legal matters in connection with the authorization and issuance of the Bonds are subject to the final approval of the legality thereof by Watkins Ludlam & Stennis, Bond Counsel. Copies of such opinion will be available at the time of delivery of the Bonds. No representation is made to the registered owners of the Bonds that Bond Counsel has verified the accuracy, completeness or fairness of the statements in the Information Statement and Bond Counsel assumes no responsibility to the registered owners of the Bonds except for the matters set forth in such opinion.

Tax Exemption

Exclusion from Gross Income Pursuant to Section 103 of the Internal Revenue Code. In the opinion of Bond Counsel, under existing statutes, regulations, rulings and decisions, as presently interpreted and construed, and based on the assumptions described below, and subject to the exceptions, conditions and limitations described below, interest on the Bonds earned by the respective owners thereof is excludable from gross income for federal income tax purposes pursuant to Section 103 of the Internal Revenue Code of 1986, as amended (the "Code").

The Code includes certain restrictions, conditions and requirements, compliance with which subsequent to issuance of the

Bonds is necessary in order that interest on the Bonds be (and continue to be) excludable from gross income for federal income tax purposes pursuant to Section 103 of the Code. In rendering its opinion, Bond Counsel will assume continuous compliance with all provisions of the Code, compliance with which subsequent to the date of issuance of the Bonds is necessary in order that interest on the Bonds be and continue to be excludable from gross income for federal income tax purposes pursuant to Section 103 of the Code. The County has covenanted to comply with each such requirement, and failure of the County to comply with such requirements may cause interest on the Bonds to be includable in gross income for federal income tax purposes, retroactive to the date of issuance of the Bonds.

Alternative Minimum Tax. Pursuant to Section 55 of the Code, an alternative minimum tax is imposed if a taxpayer's regular income tax for a year is less than such taxpayer's "tentative minimum tax" for such year. "Tentative minimum tax" is computed on the basis of "alternative minimum taxable income." "Alternative minimum taxable income" is taxable income determined with certain adjustments and increased by certain items of tax preference.

Among the adjustments applicable in determining "alternative minimum taxable income" for corporations (other than S corporations, regulated investment companies, real estate investment trusts and real estate mortgage investment conduits, as such terms are defined in the Code) is 75 percent of the amount by which "adjusted current earnings" exceeds the "alternative minimum taxable income" (determined without regard to the adjustments based on "adjusted current earnings" and the alternative net operating loss deduction described in Section 56 of the Code). Interest on the Bonds will be included in computing "adjusted current earnings."

Among the items of tax preference for all taxpayers is interest on any "specified private activity bond," reduced by any deduction (not allowable in computing the regular tax) which would have been allowable if such were included in gross income. In the opinion of Bond Counsel, the Bonds will not be "specified private activity bonds."

Certain Other Provisions of the Code Affecting Owners of the Bonds; Other Federal Tax Consequences of Interest on the Bonds. For tax years beginning before 1992, interest on the Bonds earned by a corporation will be included in calculating "modified alternative minimum taxable income" for purposes of computing the environmental tax imposed by Section 59A of the Code. Interest on the Bonds earned by certain foreign corporations doing business in the United States may be subject to the branch profits tax imposed by Section 884 of the Code. Interest on the

128

Bonds will be includable in calculating the tax on "excess net passive income" imposed by Section 1375 of the Code on certain Subchapter S corporations that have Subchapter C earnings and profits.

Interest on the Bonds held by persons who also receive Social Security or Railroad Retirement Benefits may have the effect of subjecting part of such benefits to federal income taxation. Pursuant to Section 832 of the Code, deductible underwriting losses of property and casualty insurance companies will be reduced by 15 percent of the amount of interest earned on the Bonds. (If the amount of the reduction exceeds the amount otherwise deductible as losses incurred, such excess may be includable in income).

A taxpayer may not deduct amounts which would otherwise be deductible pursuant to Section 212 of the Code (relating to expenses for production of income) which are allocable to tax-exempt interest on obligations such as the Bonds. No deduction is allowed for a taxpayer's interest expense incurred or continued to purchase or carry tax-exempt obligations such as the Bonds. Additionally, with respect to financial institutions, no deduction is allowed for that portion of the taxpayer's otherwise deductible interest expense which is allocable to tax-exempt interest on obligations acquired after August 7, 1986, except tax-exempt interest on "qualified tax-exempt obligations;" and, with respect to certain financial institutions, a taxpayer's otherwise allowable interest expense deduction is reduced by an amount equal to 20 percent of the interest allocable to "qualified tax-exempt obligations" and obligations acquired after December 31, 1982, and before August 8, 1986. Subsection 265(b) of the Code sets forth conditions under which obligations may be designated as "qualified tax-exempt obligations," and the County has determined that the Bonds may be so designated and has designated the Bonds as "qualified tax-exempt obligations."

Bond Counsel will not address or opine with respect to any federal tax consequences arising with respect to the Bonds, other than its opinion with respect to the exclusion of interest on the Bonds from gross income for federal income tax purposes pursuant to Section 103 of the Code and its opinion that the Bonds are not "specified private activity bonds." Any party considering purchasing the Bonds should consult with its own tax advisor concerning the effects of various provisions of the Code before acquiring the Bonds.

Future Federal Legislation. Legislation which may affect the tax consequences of owning municipal bonds is constantly being considered by the United States Congress. There can be no assurance that legislation enacted after the date of issuance of the Bonds will not adversely affect the tax consequences of

owning the Bonds, the exclusion of interest on the Bonds from gross income for federal income tax purposes or the market price of the Bonds.

PURPOSE: The Bonds are being issued to provide funds for the following purposes: (1) \$350,000 for purchasing fire fighting equipment and apparatus, and providing housing for the same, and purchasing machinery and equipment which have an expected useful life in excess of ten (10) years, and (2) \$180,000 for paying the principal of the Promissory Notes of the County to The Valley Bank, Greenwood, Mississippi, date March 2, 1992.

FORM OF BIDS: Bids should be addressed to the Board of Supervisors and should be plainly marked "Bid for General Obligation Public Improvement Bonds, Series 1994, of Leflore County, Mississippi," and should be filed with the Clerk of the Board of Supervisors of the County on or prior to the date and hour hereinabove named. All bids should be submitted substantially in the form prepared by the County, copies of which may be obtained from the Clerk of the Board of Supervisors of the County at the address shown below.

INTEREST RATE AND BID RESTRICTIONS: The Bonds shall not bear a greater overall maximum interest rate to maturity than six

percent (6%) per annum, nor shall the interest rate for any one maturity exceed six percent (6%) per annum. No Bond shall bear more than one (1) rate of interest; each Bond shall bear interest from its date to its stated maturity date at the interest rate specified in the bid; all Bonds of the same maturity shall bear the same rate of interest from date to maturity; and the lowest interest rate specified shall not be less than seventy percent (70%) of the highest interest rate specified. Each interest rate specified in any bid must be a multiple of one-eighth of one percent (1/8 of 1%) or one-tenth of one percent (1/10 of 1%) and a zero rate of interest cannot be named.

GOOD FAITH DEPOSIT: Each bid must be accompanied by a cashier's check, certified check, or exchange, issued or certified by a bank located in the State of Mississippi, payable to the Board of Supervisors of Leflore County, Mississippi, in the amount of Ten Thousand Six Hundred Dollars (\$10,600) as a guaranty that the bidder will carry out its contract and purchase the Bonds if its bid be accepted. All checks of unsuccessful bidders will be returned immediately on award of the Bonds. If the successful bidder fails to purchase the Bonds pursuant to its bid and contract, then the amount of such good faith check shall be retained by the County as liquidated damages for such failure. No interest will be allowed on the amount of the good faith deposit.

AWARD OF BONDS: The award, if any, will be made to the bidder complying with the terms of sale and offering to purchase the Bonds at the lowest net interest cost to the County, which shall be determined by computing the aggregate interest on the Bonds over the life of the issue at the rate or rates of interest specified by the bidder, less premium offered, if any. It is requested that each bid be accompanied by a statement of the net interest cost (computed to six decimal places), but such statement will not be considered a part of the bid. All bids shall remain firm for three (3) hours after the time specified for the opening of bids, and an award of the Bonds, or rejection of bids, will be made by the Board within said period of time.

RIGHT OF REJECTION, CANCELLATION: The Board reserves the right to reject any or all bids submitted, as well as to waive any irregularity or informality in any bid. The successful bidder shall have the right, at its option, to cancel its agreement to purchase the Bonds if the Bonds are not tendered for delivery within sixty (60) days from the date of sale thereof, and in such event the Board shall return to said bidder its good faith deposit. The Board shall have the right, at its option, to cancel its agreement to sell the Bonds if within five (5) days after the tender of the Bonds for delivery the successful bidder shall not have accepted delivery of and paid for the Bonds and in such event the Board shall retain the successful bidder's good faith deposit as liquidated damages as hereinabove provided.

134

PAYING AGENT, TRANSFER AGENT, AND REGISTRAR: The successful bidder may designate a bank or trust company located within the State of Mississippi to serve as paying agent (the "Paying Agent") for the Bonds within forty-eight (48) hours of the date of sale of the Bonds, subject to the approval of the Board. The Board's approval of the Paying Agent shall be contingent on a determination as to the willingness and ability of the Paying Agent to perform the duties of registrar and transfer agent and on the satisfactory negotiation of service fees. The Paying Agent shall be subject to change by order of the Board under the conditions and in the manner provided in the Bond Resolution under which the Bonds are issued. Both principal of and interest on the bonds will be payable by check or draft mailed to registered owners of the Bonds as of the 15th day of the month preceding the maturity date for such principal or interest payment at the addresses appearing in the registration records of the County maintained by the Paying Agent. The Bonds will be transferable only upon the books of the Paying Agent, and payment of principal at maturity shall be conditioned on the proper presentation and surrender of the Bonds to the Paying Agent.*

DELIVERY: The successful bidder must designate within thirty (30) days of the date of sale, or at such other later date as may be designated by the Board, the names and addresses of the registered owners of the Bonds and the denominations in which the Bonds of each maturity are to be issued. If the successful bidder fails to submit such information within the required time, one Bond may be issued for each maturity in the full amount maturing on that date registered in the name of the successful bidder. The Bonds will be delivered at a place to be designated by the purchaser and without cost to the purchaser, and payment therefor shall be made in immediately available funds.

CUSIP NUMBERS: It is anticipated that CUSIP identification numbers will be printed on the Bonds unless specifically declined by the purchaser, but neither the failure to print such number on any bond nor any error with respect thereto shall constitute cause for a failure or refusal by the purchaser thereof to accept delivery of and pay for the Bonds in accordance with the terms of the purchase contract. All expenses in relation to the printing of CUSIP numbers on the Bonds shall be paid by the County; the CUSIP Service Bureau charge for the assignment of said numbers shall be the responsibility of and shall be paid for by the purchaser.

LEGAL OPINION; CLOSING DOCUMENTS: The Bonds are offered subject to the unqualified approval of the legality thereof by Watkins Ludlam & Stennis, Jackson, Mississippi, Bond Counsel. In the opinion of Watkins Ludlam & Stennis, interest on the Bonds is exempt from federal and Mississippi income taxes under existing laws, regulations, rulings and judicial decisions with such exceptions as shall be described in the Information Statement for the Bonds. A copy of the opinion of Bond Counsel, which will be

printed on the back of each Bond, together with the usual closing papers, including a non-litigation certificate dated the date of delivery of the Bonds, evidencing that no litigation is pending in any way affecting the legality of the Bonds or the taxes to be levied for the payment of the principal thereof and interest thereon, and a transcript of the proceedings relating to the Bonds will be delivered to the successful bidder without charge. The County will pay for all legal fees and will pay for the printing and validation of the Bonds.

Code of Laws, and shall be general obligations of the County payable as to principal and interest out of and secured by an irrevocable pledge of the avails of a direct and continuing tax to be levied annually without limitation as to rate or amount upon the taxable property within the geographical limits of the County. The County will levy annually a direct and continuing tax upon all taxable property within the geographical limits of the County, which tax, together with any other moneys available for such purpose, shall be adequate and sufficient to provide for the payment of the principal of and the interest on the Bonds as the same falls due.

PURPOSE: The Bonds are being issued to provide funds for the following purposes: (1) \$350,000 for purchasing fire fighting equipment and apparatus, and providing housing for the same, and purchasing machinery and equipment which have an expected useful life in excess of ten (10) years, and (2) \$180,000 for paying the principal of the Promissory Notes of the County to The Valley Bank, Greenwood, Mississippi, date March 2, 1992.

FORM OF BIDS: Bids should be addressed to the Board of Supervisors and should be plainly marked "Bid for General Obligation Public Improvement Bonds, Series 1994, of Leflore County, Mississippi," and should be filed with the Clerk of the Board of Supervisors of the County on or prior to the date and hour hereinabove named. All bids should be submitted substantially in the form prepared by the County, copies of which may be obtained from the Clerk of the Board of Supervisors of the County at the address shown below.

INTEREST RATE AND BID RESTRICTIONS: The Bonds shall not bear a greater overall maximum interest rate to maturity than six percent (6%) per annum. No Bond shall bear more than one (1) rate of interest; each Bond shall bear interest from its date to its stated maturity date at the interest rate specified in the bid; all Bonds of the same maturity shall bear the same rate of interest from date to maturity; and the lowest rate specified shall not be less than seventy percent (70%) of the highest interest rate specified. Each interest rate specified in any bid must be a multiple of one-eighth of one percent (1/8 of 1%) or one-tenth of one percent (1/10 of 1%) and a zero rate of interest cannot be named.

GOOD FAITH DEPOSIT: Each bid must be accompanied by a cashier's check, certified check, or exchange, issued or certified by a bank located in the State of Mississippi, payable to the Board of Supervisors of Leflore County, Mississippi, in the amount of Ten Thousand Six Hundred Dollars (\$10,600) as a guaranty that the bidder will carry out its contract and purchase the Bonds if its bid be accepted. All checks of unsuccessful bidders will be returned immediately on award of the Bonds. If the successful bidder fails to purchase the Bonds pursuant to its bid and contract, then the amount of such good faith check shall be retained by the County as liquidated damages for such failure. No interest will be allowed on the amount of the good faith deposit.

AWARD OF BONDS: The award, if any, will be made to the bidder complying with the terms of sale and offering to purchase the Bonds at the lowest net interest cost to the County, which shall be determined by computing the aggregate interest on the Bonds over the life of the issue at the rate or rates of interest specified by the bidder, less premium offered, if any. It is requested that each bid be accompanied by a statement of the net interest cost (computed to six decimal places), but such statement will not be considered a part of the bid. All bids shall remain firm for three (3) hours after the time specified for the opening of bids, and an award of the Bonds, or rejection of bids, will be made by the Board within said period of time.

RIGHT OF REJECTION, CANCELLATION: The Board reserves the right to reject any or all bids submitted, as well as to waive any irregularity or informality in any bid. The successful bidder shall have the right, at its option, to cancel its agreement to purchase the Bonds if the Bonds are not tendered for delivery within sixty (60) days from the date of sale thereof, and in such event the Board shall return to said bidder its good faith deposit. The Board shall have the right, at its option, to cancel its agreement to sell the Bonds if within five (5) days after the tender of the Bonds for delivery the successful bidder shall not have accepted delivery of and paid for the Bonds, and in such event the Board shall retain the successful bidder's good faith deposit as liquidated damages as hereinabove provided.

PAYING AGENT, TRANSFER AGENT, AND REGISTRAR: The successful bidder may designate a bank or trust company located within the State of Mississippi to serve as paying agent (the "Paying Agent") for the Bonds within forty-eight (48) hours of the date of sale of the Bonds, subject to the approval of the Board. The Board's approval of the Paying Agent shall be contingent on a determination as to the willingness and ability of the Paying Agent to perform the duties of registrar and transfer agent and on the satisfactory negotiation of service fees. The Paying Agent shall be subject to change by order of the Board under the conditions and in the manner provided in the Bond Resolution under which the Bonds are issued. Both principal of and interest on the Bonds will be payable by check or draft mailed to registered owners of the Bonds as of the 15th day of the month preceding the maturity date for such principal or interest payment at the addresses appearing in the registration records of the County maintained by the Paying Agent. The Bonds will be transferable only upon the books of the Paying Agent, and payment of principal at maturity shall be conditioned on the proper presentation and surrender of the Bonds to the Paying Agent.

DELIVERY: The successful bidder must designate within thirty (30) days of the date of sale, or at such other later date as may be designated by the Board, the names and addresses of the registered owners of the Bonds and the denominations in which the Bonds of each maturity are to be issued. If the successful bidder fails to submit such information within the required time, one Bond may be issued for each maturity in the full amount maturing on that date registered in the name of the successful bidder. The Bonds will be delivered at a place to be designated by the purchaser and without cost to the purchaser, and payment therefor shall be made in immediately available funds.

CUSIP NUMBERS: It is anticipated that CUSIP identification numbers will be printed on the Bonds unless specifically declined by the purchaser, but neither the failure to print such number on any bond nor any error with respect thereto shall constitute cause for a failure or refusal by the purchaser thereof to accept delivery of and pay for the Bonds in accordance with the terms of the purchase contract. All expenses in relation to the printing of CUSIP numbers on the Bonds shall be paid by the County; the CUSIP Service Bureau charge for the assignment of said numbers shall be the responsibility of and shall be paid for by the purchaser.

LEGAL OPINION; CLOSING DOCUMENTS: The Bonds are offered subject to the unqualified approval of the legal counsel of the County, Mississippi, Bond Counsel, in the opinion of Watkins Ludlum & Stennis, Jackson, Mississippi, Bond Counsel. Interest on the Bonds is exempt from federal and Mississippi income taxes under existing laws, regulations, rulings and judicial decisions, with such exceptions as shall be described in the Information Statement for the Bonds. A copy of the opinion of Bond Counsel, which will be printed on the back of each Bond, together with the usual closing papers, including a non-litigation certificate dated the date of delivery of the Bonds, evidencing that no litigation is pending in any way affecting the legality of the Bonds or the taxes to be levied for the payment of the principal thereof and interest thereon, and a transcript of the proceedings relating to the Bonds will be delivered to the successful bidder without charge. The County will pay for all legal fees and will pay for the printing and validation of the Bonds.

INFORMATION FROM PURCHASER: The purchaser must certify to the County the initial offering price to the public (excluding bond houses, brokers and other intermediaries) of each maturity of the Bonds at which a substantial amount of Bonds of that maturity were sold, to enable the County to compute the yield on the Bonds for federal arbitrage law purposes.

FURTHER INFORMATION: The County has prepared an Information Statement relating to the Bonds which the County deems to be final and complete as of this date. The County will furnish up to 25 copies of the Information Statement to the successful bidder of the Bonds without charge within seven (7) business days after the award of the bid. The successful bidder must notify the Chancery Clerk of the County in writing within five (5) business days of the award of the bid if the bidder requires additional copies of the Information Statement to comply with applicable regulations. The cost for such additional copies will be paid by the successful bidder requesting such copies. A copy of the Information Statement including the bid form may be obtained from the Office of the Chancery Clerk, Post Office Box 1488, Greenwood, Mississippi 38930. By order of the Board of Supervisors of Leflore County, Mississippi, on June 27, 1994.

4. At said time and place four (4) sealed proposals for the purchase of the Bonds were received, examined and considered by the Board, said bids having heretofore been presented by and being on file with the Clerk of the Board.

5. The Board does now find, determine and adjudicate that the highest and best bid made and offered for the Bonds on the basis of the lowest net interest cost over the life of the issue was made by FIRST TENNESSEE BANK, N.A., MEMPHIS, TENNESSEE (the "Purchaser"), and said bid was accompanied by a cashier's check, certified check or exchange payable to the Board, in the amount of Ten Thousand Six Hundred Dollars (\$10,600), issued or certified by a bank located in the

148

State of Mississippi, as a guarantee that said bidder would carry out its contract and purchase the Bonds if its bid be accepted.

NOW, THEREFORE, BE IT RESOLVED BY THE BOARD AS FOLLOWS:

SECTION 1. The Bonds are hereby awarded and sold to the Purchaser in accordance with the offer submitted to the Board in words and figures as follows:

5792 ORDER RECEIVING NO BIDS FOR INSTALLATION
OF CONCRETE CULVERT AND AUTHORIZING COUNTY
ENGINEER TO SOLICIT A CONTRACTOR FOR SAID
INSTALLATION

BE IT REMEMBERED that this Board of Supervisors has heretofore published its Notice of Intention to receive bids on this the 1st day of August, 1994 for the installation and/or furnishing and installation of various sizes of concrete culvert, said publication having been made in the Greenwood Commonwealth, a local newspaper with general circulation in the area, said publication having been made in the manner and form as required by law and as evidenced by the Proof of Publication made a part of this order.

There being no bids received, the Board then, having twice advertised and twice received no bids, found and determine that the County Engineer be authorized to solicit a contractor, by means of negotiation, for the immediate installation of concrete culvert pipe, so as to enable Leflore County to proceed with the necessary repairs to the county road near Fairfield Subdivision, so as to provide for a safe and permanent installation replacing the old wooden bridge on said location.

It is noted, for the record, that for this particular site, the concrete culverts needed are already on hand in the inventory and paid for but are of such size and weight that Leflore County has no equipment than can lift and transport or deliver in place at the repair site and must contract for said service. An emergency condition exists at this site and must be corrected as expeditiously as possible prior to anticipated winter rainfall. So ordered on this the 1st day of August, 1994.

II. TARGET AREA

The designated target area for units to be built under the HOME program shall be an area located between the western corporate limits of the City of Itta Bena, MS and U.S. Highway 82 West. The HOME project will be called "Leflore Villas".

5804 ORDER APPROVING THE COLLATERAL SECURITY AGREEMENT FOR MISSISSIPPI PUBLIC FUNDS DEPOSITS AND THE AMENDMENT THERETO AND THE CUSTODIAL AGREEMENT FOR HOLDING COLLATERAL SECURING MISSISSIPPI PUBLIC FUNDS AND THE AMENDMENT THERETO AND AUTHORIZING THE CHANCERY CLERK OF LEFLORE COUNTY TO EXECUTE SAID AGREEMENTS ON BEHALF OF LEFLORE COUNTY

There next came on for consideration the matter of receiving the Custodial Agreement for Holding Collateral Securing Mississippi Funds and the Collateral Security Agreement for Mississippi Public Funds Deposits. The foregoing named agreements having been prepared by the State Audit Department for the State of Mississippi for execution by Leflore County and its depositories in order to comply with the requirements of FIRREA.

Upon close examination of said documents, it is apparent that, as presently prepared, Leflore County would have no control over substitute collateral. The Chancery Clerk directed the Boards' attention to a letter he had received from the Nashville Branch, Federal Reserve Bank of Atlanta, Nashville, Tennessee, dated June 24, 1994, which appeared to be written for the purpose of informing all public bodies transacting securities business with the Sixth Federal Reserve District that the pledgee (Leflore County) should have control over custody accounts and must approve all substitute collateral pledged. The letter referred to here appears later as an exhibit to this order.

Having considered the foregoing and having been informed by the Clerk that an amendment to the agreement limiting the entire document in the area of substitute collateral to the provisions of the Nashville Branch, Federal Reserve Bank of Atlanta, Nashville, Tennessee, letter dated June 24, 1994 and signed by Margaret Thomas, Assistant Vice President, Securities Product Manager, is advisable, the Board next proceeded and approved both the Collateral Security Agreement and the Custodial Agreement with the amendment proposed by the Clerk added to each document to-wit:

NASHVILLE BRANCH
FEDERAL RESERVE BANK OF ATLANTA
NASHVILLE, TENNESSEE 37203-4407

MARGARET THOMAS
ASSISTANT VICE PRESIDENT
SECURITIES PRODUCT MANAGER

June 24, 1994

**TO: ALL PUBLIC BODIES TRANSACTING SECURITIES BUSINESS WITH THE SIXTH
FEDERAL RESERVE DISTRICT**

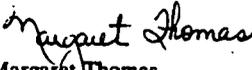

In March 1994, you were notified that the Federal Reserve System had developed standard operating procedures for the Bookentry Safekeeping and Transfer Service. The most significant change associated with these procedures effective July 1, 1994 is that the pledgee must approve all substitute collateral pledged to custody accounts. This change will not affect the deposit of securities to these accounts but will directly affect the substitutions and withdrawals. Therefore, it will be the responsibility of the financial institution who has pledged securities to your account to communicate to you the matching instructions that the Reserve Bank will require for completing the transaction. If matching withdrawal instructions are not received from the pledgee, the transaction will not be completed and the security will remain pledged to your account. The purpose of this change is to give you, the pledgee, more control over your account.

With the July 1 effective date approaching, we wanted to remind you of your new responsibility to provide the Federal Reserve with approval instructions to release or substitute collateral pledged to your account when necessary. In order to process a collateral release or substitution, it is necessary to follow specific instruction and verification procedures. This can be accomplished by the following:

- Submit an original letter of instructions signed by an authorized individual (an individual listed on your pledgee signature authorization agreement on file with the Federal Reserve) to the Federal Reserve Bank, Nashville Branch for subsequent signature verification.
- Telephone request to the Federal Reserve Bank, Nashville Branch from an authorized individual with subsequent callback to a second authorized individual at your organization.
- Submit a fax request signed by an authorized individual to the Federal Reserve Bank, Nashville Branch with subsequent callback to a second authorized individual at your organization.

It is important for you to communicate with your depository institution and notify the Federal Reserve in a timely manner concerning collateral transactions, maturing pledged securities, etc. Please be assured that we are committed to providing superior quality to our customers. If you have any questions concerning these changes, please contact Trev Brown at (615) 251-7222, Rick Gross at (615) 251-7220, or Pat Dyer at (615) 251-7150. Thank you for your assistance.

COLLATERAL SECURITY AGREEMENT

FOR MISSISSIPPI PUBLIC FUNDS DEPOSITS

THIS COLLATERAL SECURITY AGREEMENT is made and entered into on this day by and between the Leflore County Chancery Clerk, hereinafter called "Depositor", and Trustmark National Bank, a _____ banking association, organized under the laws of _____, and authorized by law to do banking business in the state of Mississippi, hereinafter called "Bank".

RECITALS

Through action of its governing Board, Depositor has designated Bank as a depository for funds of the Depositor. During the term of this Collateral Security Agreement, the Depositor will, through appropriate action of its governing Board, designate the officer, or officers, who singly or jointly will be authorized to represent and act on behalf of the Depositor in any and all matters of every kind arising under the Collateral Security Agreement. Bank's Customer Service, Depositor or other pertinent Agreement, is incorporated herein for all purposes; however, to the extent that any provisions therein conflict with any provisions herein, this Collateral Security Agreement will control.

Funds on deposit with Bank to the credit of the Depositor are required to be secured by Collateral as provided for by the laws and statutes of the State of Mississippi. Under the terms of this Agreement, as hereinafter described, Bank shall grant to Depositor a security interest in certain Collateral. The parties shall name and designate a statutory third party custodian (hereinafter called the "Custodian,") which will hold the Collateral in a joint custody account for the benefit of the Depositor. Depositor shall have entered into or shall in the future enter into a separate Custodial Agreement with such Custodian, which is incorporated herein by reference.

203

THEREFORE, in consideration of the foregoing and for other good and valuable considerations, the receipt and sufficiency of which are hereby acknowledged, it is agreed as follows:

I. Bank hereby pledges to Depositor, and grants to Depositor a security interest in, those assets (hereinafter called the "Collateral" or "substitute Collateral") owned by Bank and held by Custodian for the benefit of Depositor, in accordance with the terms of this Collateral Security Agreement, to secure the deposits held by Bank for Depositor. Depositor shall at all times have a first priority perfected security interest in the Collateral held by Custodian for the benefit of Depositor, and Bank shall not incur the Collateral to defeat Depositor's position nor hinder Depositor's ability to collect upon the Collateral under this Agreement.

II. The total of the market value of the Collateral securing such deposits will be in such an amount to comply with the applicable statutes of the State of Mississippi.

III. Bank has heretofore, or will hereafter, deliver to Custodian Collateral of the kind and character permitted by said statutes of sufficient amount and market value to provide adequate Collateral for the funds of Depositor deposited with Bank as required by said statutes. Said Collateral, or substitute Collateral as hereinafter provided for, shall be kept and retained by Custodian in trust so long as the depository relationship between Depositor and Bank shall exist hereunder, and thereafter so long as deposits made by Depositor with Bank, or any portion thereof, shall have been properly paid out by Bank to Depositor or on its order. Custodian shall not release any such Collateral without the written permission of Depositor, except as authorized under this Agreement.

IV. Bank shall cause Custodian to accept said Collateral and hold the same in trust for the purposes herein stated.

V. Should Bank fail at any time to pay and satisfy, when due, any check, draft, warrant, or voucher lawfully drawn against any deposit of Depositor, or in case Bank becomes insolvent or in any manner breaches its contract with Depositor, Depositor may give written demand for cure or reparation of such failure, insolvency or breach to Bank, and Bank shall within five business days from receipt of such notice cure such failure, insolvency or breach. In the event Bank shall fail to cure such failure, insolvency or breach within five business days of receiving said written notice, it shall be the duty of Custodian, upon written demand of Depositor announcing the default of Bank under this Agreement, to surrender the above-described Collateral to the Depositor. Depositor may sell or cause to be sold all or part of such Collateral and out of the proceeds thereof pay Depositor all damages and losses sustained by it, together with all reasonable expenses of any and every kind incurred by it on account of such failure, insolvency or breach, or sale, accounting to Bank for the remainder, if any, of said proceeds or Collateral remaining unsold. Bank shall remain liable for any deficiency after sale and reasonable expenses.

204

VI. Any sale of such Collateral, or part thereof, made by Depositor hereunder may be made either at public or private sale; provided, however, it shall give Bank ten days written notice of the time and place where such sale shall take place, and such sale shall be to the highest bidder for cash. Depositor and Bank shall have the right to bid at such sale.

VII. If at any time the aggregate market value of such Collateral so deposited with Custodian is less than the total sum required under said statutes, Bank shall within one business day deposit with Custodian such additional Collateral as may be necessary to cause the market value of such Collateral to equal the total amount of required Collateral. Bank shall make reasonable efforts to monitor the amount of deposits of Depositor, but it shall be the duty of Depositor to notify Bank of any significant increases in deposits. Bank shall monitor the market value of the Collateral at least monthly.

VIII. If Bank shall desire to sell or otherwise dispose of any one or more of said securities (Collateral) so deposited with Custodian, Bank may substitute for any one or more of such securities other securities of the same market value and character authorized herein. Such right of substitution shall remain in full force and may be exercised by Bank at any time and as often as it may desire; provided, however, that the aggregate market value of all Collateral pledged at any time shall be at least equal to the amount of Collateral required hereunder. With the tender of substitute Collateral to Custodian, Bank hereby warrants that the substitute Collateral will be of the same or greater market value as the Collateral released and of the kind and character permitted under the statutes. With respect to Collateral released under this paragraph, the security interest in such Collateral shall terminate upon proper and sufficient substitution.

IX. Bank shall be entitled to any and all income, interest, dividend or periodic payments of principal plus prepayments of principal on securities held by Custodian, and Custodian may dispose of such income as directed by Bank without approval of Depositor, provided that Depositor has not notified Custodian that Bank is in default under this Agreement.

X. Bank shall, or Bank shall cause Custodian to, promptly forward to Depositor copies of safekeeping or trust receipts covering all such Collateral held by Custodian for the benefit of Depositor, including substitute Collateral as provided for herein, and such receipts, or copies thereof, shall be deemed part of this Agreement. However, when the State Treasurer is the Depositor, Custodian shall send such receipts directly to the Treasurer's office. Bank shall, or Bank shall cause Custodian to, remit statements of account of the Collateral to Depositor or its auditors at least semi-annually.

XI. Securities (Collateral) delivered to Custodian in contemplation of or subsequent to execution of this Agreement, may be acceptable and effective as security for the purposes of this Agreement with or without specific mention by resolution of the

appropriate governing committee or board of Bank or the governing body of Depositor.

XII. If at any time the Collateral in the hands of Custodian shall have a market value in excess of that required by said statutes, Depositor shall within one business day upon demand by Bank, authorize Custodian to release a specified amount of such excess of Collateral, and Custodian shall deliver this specified amount of Collateral (or specified securities) to Bank, taking its receipt therefor, and Custodian shall have no further liability for Collateral so redelivered to Bank under this paragraph, and the security interest provided for hereunder shall terminate with respect to such released collateral.

XIII. Either Depositor or Bank shall have the right to terminate this Agreement by advance written notice to the other of its election to do so, and this Agreement shall be null and void from and after the expiration of sixty days after the receipt of such notice, or when, upon notice of termination, all deposits of Depositor have been paid out by Bank. Upon such proper termination of this Agreement, the security interest provided for herein shall terminate, and Depositor shall immediately give Custodian written notice of such termination, whereupon Custodian shall re-deliver the Collateral to Bank.

XIV. When the depository relationship of Depositor and Bank shall have ceased to exist, and when Bank shall have properly paid out all deposits of Depositor, it shall be the duty of Depositor to immediately give Custodian written notice to that effect; whereupon Custodian shall redeliver to Bank all Collateral then in its possession belonging to Bank, taking its receipt therefor. Upon such notice that all deposits have been properly paid out, the security interest provided for herein shall terminate. However, unless a notice of termination (as described in paragraph XIII, above) shall have been previously delivered, this Agreement shall be reinstated when a depository relationship shall be reinstated between Depositor and Bank.

XV. This Agreement shall be governed by the laws of the State of Mississippi. Any modifications to this Agreement, or change in Custodian, shall be agreed to and in writing signed by Depositor and Bank. This Agreement is continuing and binding upon Bank and its successors and assigns, and shall inure to the benefit of Depositor and its successors and assigns.

XVI. Bank shall not utilize a Custodian for the purpose of holding Collateral for the benefit of a public funds Depositor if such Bank and Custodian are owned by a single bank holding company.

XVII. This Agreement may be executed in one or more counterparts, each of which shall be deemed an original.

XVIII. A copy of the resolution of the appropriate governing committee or board of Bank authorizing execution of this Agreement is attached hereto.

206

XIX. As used in this Agreement, the term "business day" shall mean a day in which the Federal Reserve Bank shall be open for the transaction of business.

FOR HOLDING COLLATERAL SECURING
MISSISSIPPI PUBLIC FUNDS**

THIS CUSTODIAL AGREEMENT is made and entered into on this day by and between the Leflore County Chancery Clerk, hereinafter called "Depositor," and Federal Reserve Bank of Atlanta, hereinafter called "Custodian."

RECITALS

Under the applicable statutes of the State of Mississippi, Depositor shall choose one or more depositories for its funds (hereinafter called "public funds"), and the depository (hereinafter called "Bank") shall secure and collateralize such public funds as outlined by said statutes. The securities placed with Custodian by Bank to secure public funds shall hereinafter be referred to as "Collateral." Custodian shall accept Collateral pledged by Bank to secure such public funds and shall not release any of such Collateral except as outlined in this Custodial Agreement. Depositor shall have entered into or shall in the future enter into a separate Collateral Security Agreement with each Bank, under which Bank shall grant a security interest in the Collateral to Depositor. Such Collateral Security Agreement shall govern the duties and rights between the Depositor and the Bank named therein, and is incorporated herein by reference. This Custodial Agreement shall govern the duties of Custodian to Depositor with respect to the Collateral delivered to Custodian by Bank for the benefit of Depositor under any Collateral Security Agreement to which Depositor is a party with a Bank, whether one or more, unless another agreement specifically overrides.

THEREFORE, FOR MUTUAL CONSIDERATIONS, Depositor and Custodian agree as follows:

A) Depositor shall authorize Bank to deposit Collateral or substitute Collateral ("Collateral") with Custodian to be held for the benefit of Depositor.

B) Custodian shall accept assets and securities pledged by Bank for the benefit of Depositor and shall not release such securities except as outlined herein.

208

C) Custodian shall advise Depositor or Bank of the receipt of the Collateral or substitute Collateral and deliver any safekeeping or trust receipts representing the Collateral or substitute Collateral to Depositor or Bank. However, when the State Treasurer is the Depositor, Custodian shall send such receipts directly to the Treasurer's office.

D) Custodian shall have no responsibility to determine whether or not the market value or amount of the Collateral is sufficient under said statutes, nor whether the Collateral is "eligible collateral" under said statutes.

E) Custodian shall permit Bank to substitute Collateral as often as it may wish.

F) Except in the case of proper substitution, Custodian shall not permit Bank to withdraw Collateral without the written permission of Depositor.

G) Bank is entitled to all income, interest, dividend or periodic payments of principal plus prepayments of principal created by the Collateral, and Custodian shall deliver same to Bank as Bank directs, provided that Depositor has not notified Custodian in writing that Bank is in default under the Collateral Security Agreement, in which case Custodian shall hold such income, interest, dividend or periodic payment of principal plus prepayments of principal subject to further notice of the beneficiary Depositor.

H) Upon written notification by Depositor of default of Bank pursuant to the Collateral Security Agreement, Custodian shall deliver all Collateral (and income, interest, dividend or periodic payment of principal plus prepayments of principal on the Collateral not previously withdrawn by Bank) to Depositor, which shall relieve Custodian of any further responsibility for said Collateral or further responsibility to Bank. Custodian shall be entitled to rely on such notice of default and shall not have any duty to verify the accuracy of such notice of default.

I) Depositor or its auditors shall have the right to examine the Collateral (or entries) held by Custodian for its benefit at any time during regular business hours of Custodian.

J) Custodian shall adequately safekeep the Collateral so as not to permit its destruction or loss, and shall not otherwise encumber the Collateral to the detriment of Depositor. Custodian shall segregate on the books of Custodian the Collateral held for Bank and shall hold the Collateral separate from Custodian's securities.

K) Custodian shall not act as Custodian for Collateral pledged by a Bank for the benefit of a public funds Depositor if such Custodian and Bank are owned by a single bank holding company.

L) Any modifications to this Custodial Agreement shall be agreed to and in writing signed by the Depositor and Custodian.

209

M) This Custodial Agreement may be executed in one or more counterparts, each of which shall be deemed an original.

THE MONTHLY MEETING
OF THE
YMD JOINT WATER MANAGEMENT DISTRICT BOARD OF COMMISSIONERS
WILL BE HELD
WEDNESDAY, AUGUST 17, 1994
9:00 a.m.
THE UNION, ROOM 302-A
DELTA STATE UNIVERSITY

MINUTES OF THE REGULAR MONTHLY MEETING OF
YMD JOINT WATER MANAGEMENT DISTRICT
BOARD OF COMMISSIONERS
JULY 13, 1994
THE UNION, DELTA STATE UNIVERSITY
CLEVELAND, MS

The Board of Commissioners of the YMD Joint Water Management District held their monthly meeting on Wednesday, July 13, 1994, with all Commissioners present except Tom Reed of Humphreys County, Howard Evans of Leflore County, Rex Morgan of Sunflower County, Sykes Sturdivant of Tallahatchie County, Dick Flowers of Tunica County, and Marcus Hooker of Washington County.

The June minutes were reviewed. There being no additions or corrections, Commissioner George Berry moved to approve the minutes as submitted. The motion was duly seconded and all Commissioners present voted "Aye".

Ms. McGaugh presented the financial report. The District received \$13,281.60 from the counties during the month of June. At the end of June, the District had \$341,978.62 in checking accounts and \$50,631.94 in certificates of deposits. The total cash in the checking accounts included loan proceeds. The following expenses were submitted for approval: Greg Belford; \$314.60, Dillard Melton; \$126.90, Mike Hendricks; \$424.08, Lena Wilson; \$28.91, Judith McGaugh; \$13.08, Beau Neill; \$245.21, Christy Lewis; \$35.63, Mark Stiles; \$16.80, Mark Yarborough; \$4.67, Dean Pennington; \$129.01, Griffith and Griffith; \$640.25, Petty Cash reimbursement; \$2,212.37, and Accounts Payable; \$20,092.01. Commissioner Frank Gwin moved to approve the expenses as presented. Commissioner Johnny Laney seconded and all Commissioners present voted "Aye".

Requested purchases were submitted and discussed. Commissioner George Berry moved to authorize the Executive Director and the Purchasing Agent to proceed with taking the necessary action to purchase the following:

YMD Signs for District Trucks	\$250.00
-------------------------------	----------

with such authorization to comply with all applicable public purchasing laws, including advertising for competitive bids to the extent required by law. Commissioner Laurance Carter seconded and all Commissioners present voted "Aye".

The Commissioners were informed of the Mississippi Water Resources Association meeting to be held August 3-5 in Biloxi. Commissioner Will Long moved to authorize all Commissioners and 3 staff members to attend that conference and to pay booth fee, registration and expenses commensurate with attending the conference. Commissioner Herbert Huddleston seconded and all Commissioners present voted "aye".

Dr. Pennington told the Board that the Model Farm Field Day held July 7 at Charlie Heinsz's farm east of Shelby was a big success. Approximately 80 people attended with the largest representation from ASCS. The fish caught at the bass tournament demonstrated that fisheries could exist and thrive immediately adjacent to a farm. The news coverage of the event was sensational. The field day was paid for by energy escrow money. The Board discussed moving the model farm to a different area of the Delta next year.

218

Dr. Pennington explained a proposed committee structure composed of 6 general committees. The committees and their basic responsibilities would be: Planning- review and recommend district objectives, Projects-review and recommend specific projects and activities, Permitting-review permitting objectives and make recommendations for any changes, Personnel-review and recommend staff needs to complete projects, Equipment-review and recommend equipment needed to complete projects, Budget & Finance-review monthly financial statements and make detailed review and recommendation of proposed annual budgets. The Board discussed how to shift emphasis and responsibility to committees. The Commissioners suggested writing an overall mission statement and setting annual goals based on it.

Dr. Pennington reported that the Action Committee for the SCS Water Supply Study had met. The committee includes Paul Rodrigue, Karrie Pennington, James Johnson, and Wayne Ellis for SCS and Dean Pennington for YMD. When organized, the objective of committee was to have a small group of SCS staff who had reviewed the activities that had been recommended. In this way, when the recommendations arrive in Jackson to be approved, it would be easier for decisions to be made to become involved in that activity. Lena Wilson, of YMD, will be keeping minutes of the meetings and thereby creating a record of proposed activities. At the last Action Committee meeting, it was confirmed that SCS will do outside contracting for the project. Some possible outside contracting needed include groundwater modeling, flow augmentation and water quality work. The Committee members expressed the need for public meetings. The Action Committee scheduled a meeting with Homer Wilkes, State Conservationist, on August 15 to inform him of details about the study. The Action Committee will explain to Wilkes what the study is and why SCS feels it is needed. A group from YMD should plan to meet with Mr. Wilkes to explain why the local sponsor feels the study is important.

The Commissioners asked if YMD had received any rent from SCS on the space being used in Merigold. Judith McGaugh reported that she had contacted SCS and was told to write a letter requesting the rent.

Dr. Pennington told the Commissioners that James Johnson had visited the weir at Lake Bollivar. He reminded the Board of the project YMD had discussed involving raising the weir. Pennington reported that Johnson thought SCS may be interested in modifying that weir if there is local interest in doing so. Johnson suggested that YMD send Homer Wilkes a letter describing the situation along with all documentation showing support from others.

Dr. Pennington reported that he had not been able to meet with Jimmy Palmer during the past month. The Commissioners encouraged him to keep trying.

Two meetings have been held on the MSEA (Management Systems Evaluation Area) project. Dr. Pennington attended the meetings and reported on the progress of the project. The 3 sites should be selected by the end of this month. The choices are all near the Leflore, Sunflower, and Humphreys County lines. The project involves monitoring how farming practices effect water quality. A meeting has been planned with landowners around the chosen lakes to get their cooperation on the project. The funding of the project come from the ARS, Mississippi State University and the USGS. YMD has contributed time only. Pennington announced an Advisory Committee meeting in Stoneville on August 16 which will describe the project in more detail. The Commissioners were encouraged to attend.

Greg Belford announced that the new YMD office building was progressing as expected. The outside of the building was almost complete. The Commissioners agreed that Mr. Belford should handle any small change orders as needed for the building. The Board then discussed the

moving process. Commissioner Frank Gwin made a motion to hire movers for the contents of the office building. Commissioner Greene Blythe seconded and all Commissioners present voted "aye". It was noted that hiring a moving company would cost approximately \$1500. The Board also suggested verifying that all equipment would be covered by insurance during the move.

Dr. Pennington reported that he and Commissioner Greene Blythe met with Desoto County supervisors during the past month. Judith McGaugh and Commissioner Rex Morgan met with Sunflower County supervisors. Both meetings concerned YMD's budget request and went well.

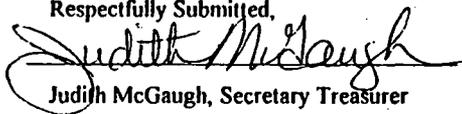

The Commissioners were given a copy of a well abandonment publication composed by YMD. DEQ approved the publication and it was reviewed by other concerned agencies. These publications will be distributed through the ASCS.

The Board was informed that the District's newsletters were ready and would be mailed this week.

A written summary of the permit applications processed by YMD during the past month was given to the Commissioners. Permitting Administrator Greg Belford reported that 27 applications were received during the month. All applications presented to the State Permit Board by YMD were approved.

There being no further business to discuss, the meeting was adjourned.

Respectfully Submitted,

Judith McGaugh, Secretary Treasurer

CONTRACT FOR PROFESSIONAL OR TECHNICAL SERVICES

Part II - Terms and Conditions

1. Termination of Contract for Cause. If, through any cause, the Contractor shall fail to fulfill in timely and proper manner his obligations under this Contract, or if the Contractor shall violate any of the covenants, agreements, or stipulations of this Contract, the Local Public Agency shall thereupon have the right to terminate this Contract by giving written notice to the Contractor of such termination and specifying the effective date thereof, at least five days before the effective date of such termination. In such event, all finished or unfinished documents, data, studies, and reports prepared by the Contractor under this Contract shall, at the option of the Local Public Agency, become its property and the Contractor shall be entitled to receive just and equitable compensation for any satisfactory work completed on such documents.

Notwithstanding the above, the Contractor shall not be relieved of liability to the Local Public Agency for damages sustained by the Local Public Agency by virtue of any breach of the Contract by the Contractor, and the Local Public Agency may withhold any payments to the Contractor for the purpose of setoff until such time as the exact amount of damages due the Local Public Agency from the Contractor is determined.

2. Termination for Convenience of Local Public Agency. The Local Public Agency may terminate this Contract any time by a notice in writing from the Local Public Agency to the Contractor. If the Contract is terminated by the Local Public Agency as provided herein, the Contractor will be paid an amount which bears the same ratio to the total compensation as the services actually performed bear to the total services of the Contractor covered by this Contract, less payments of compensation previously made: Provided, however, that if less than sixty per cent of the services covered by this Contract have been performed upon the effective date of such termination, the Contractor shall be reimbursed (in addition to the above payment) for that portion of the actual out-of-pocket expenses (not otherwise reimbursed under this Contract) incurred by the Contractor during the Contract period which are directly attributable to the uncompleted portion of the services covered by this Contract. If this Contract is terminated due to the fault of the Contractor, Section 1 hereof relative to termination shall apply.

3. Changes. The Local Public Agency may, from time to time, request changes in the scope of the services of the Contractor to be performed hereunder. Such changes, including any increase or decrease in the amount of the Contractor's compensation, which are mutually agreed upon by and between the Local Public Agency and the Contractor, shall be incorporated in written amendments to this Contract.

b. All the services required hereunder will be performed by the Contractor or under his supervision and all personnel engaged in the work shall be fully qualified and shall be authorized or permitted under State and local law to perform such services.

c. No person who is serving sentence in a penal or correctional institution shall be employed on work under this Contract.

5. Anti-Kickback Rules. Salaries of architects, draftsmen, technical engineers, and technicians performing work under this Contract shall be paid unconditionally and not less often than once a month without deduction or rebate on any account except only such payroll deductions as are mandatory by law or permitted by the applicable regulations issued by the Secretary of Labor pursuant to the "Anti-Kickback Act" of June 13, 1934 (48 Stat. 948; 62 Stat. 740; 63 Stat. 108; title 18 U.S.C., section 874; and title 40 U.S.C., section 276c). 6. Withholding of Salaries. If, in the performance of this Contract, there is any underpayment of salaries by the Contractor or by any subcontractor thereunder, the Local Public Agency shall withhold from the Contractor out of payments due to him an amount sufficient to pay to employees underpaid the difference between the salaries required hereby to be paid and the salaries actually paid such employees for the total number of hours worked. The amounts withheld shall be disbursed by the Local Public Agency for and on account of the Contractor or subcontractor to the respective employees to whom they are due.

7. Claims and Disputes Pertaining to Salary Rates. Claims and disputes pertaining to salary rates or to classifications of architects, draftsmen, technical engineers, and technicians performing work under this Contract shall be promptly reported in writing by the Contractor to the Local Public Agency for the latter's decision which shall be final with respect thereto.

8. Equal Employment Opportunity. During the performance of this Contract, the Contractor agrees as follows:

- a. The Contractor will not discriminate against any employee or applicant for employment because of race, color, religion, sex, or national origin. The Contractor will take affirmative action to ensure that applicants are employed, and that employees are treated during employment, without regard to their race, color, religion, sex, or national origin. Such action shall include, but not be limited to, the following: employment, upgrading, demotion, or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and

selection for training, including apprenticeship. The Contractor agrees to post in conspicuous places, available to employees and applicants for employment, notices to be provided by the Local Public Agency setting forth the provisions of this nondiscrimination clause.

- b. The Contractor will, in all solicitations or advertisements for employees placed by or on behalf of the Contractor, state that all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, or national origin.
- c. The Contractor will cause the foregoing provisions to be inserted in all subcontracts for any work covered by this Contract so that such provisions will be binding upon each subcontractor, provided that the foregoing provisions shall not apply to contracts or subcontracts for standard commercial supplies or raw materials.

9. Discrimination Because of Certain Labor Matters. 11. Subcontracting. None of the services covered by this Contract shall be subcontracted without the prior written consent of the Local Public Agency. The Contractor shall be as fully responsible to the Local Public Agency for the acts and omissions of his subcontractors, and of persons either directly or indirectly employed by them, as he is for the acts and omissions of persons directly employed by him. The Contractor shall insert in each subcontract appropriate provisions requiring compliance with the labor standards provisions of this Contract.

12. Assignability. The Contractor shall not assign any interest in this Contract, and shall not transfer any interest in the same (whether by assignment or novation) without the prior written approval of the Local Public Agency: Provided, however, that claims for money due or to become due the Contractor from the Local Public Agency under this Contract may be assigned to a bank, trust company, or other financial institution, or to a Trustee in Bankruptcy, without such approval. Notice of any such assignment or transfer shall be furnished promptly to the Local Public Agency.

13. Interest of Members of Local Public Agency. No member of the governing body of the Local Public Agency, and no other officer, employee, or agent of the Local Public Agency who exercises any functions or responsibilities in connection with the carrying out of the Project to which this Contract pertains, shall have any personal interest, direct or indirect, in this Contract.

14. Interest of Other Local Public Officials. No member of the governing body of the locality in which the Project Area is situated, and no other public official of such locality, who exercises any functions or responsibilities in the review or approval of the carrying out of the Project to which this Contract pertains, shall have any personal interest, direct or indirect, in this Contract.

3.00 SCOPE

All employees of Leflore County (full time, part time, or temporary) are subject to the provisions of this policy.

All such employees of Leflore County who unlawfully use, distribute or possess drugs, controlled substances, or drug related paraphernalia, while on County time or on County property, will be discharged. Illegal substances will be confiscated and turned over to the appropriate law enforcement agency.

Employees found to be unlawfully involved with drugs or controlled substances on their own time will be subject to disciplinary action, including discharge.

Employees with personal drug problems are encouraged to request assistance from the Leflore County Employee Assistance Program through the Personnel Department. Voluntary participation in the Employee Assistance Program will be treated on a confidential basis. While voluntary participation in the Employee Assistance Program usually will not involve disciplinary action by the County, such participation will not prevent the County from taking disciplinary action where warranted.

Employees undergoing prescribed medical treatment with a drug or controlled substance, which may alter their physical or mental

ability, must have their physician report this fact to the Personnel Director. It may be necessary to change an employee's job assignment while the employee is undergoing treatment.

4.00 OBJECTIVES

1. TO PROVIDE A SAFE AND HEALTHFUL WORK ENVIRONMENT FOR ALL EMPLOYEES.
2. TO PROTECT THE WELL-BEING OF ALL VISITORS AND GUESTS.
3. TO PROTECT THE WELL-BEING OF THE GENERAL PUBLIC.
4. TO PROTECT ALL PROPERTY, COUNTY AND PERSONNEL, FROM INJURY, DAMAGE OR LOSS.
5. TO COMPLY WITH APPLICABLE LAWS, STATUTES AND REGULATIONS.

5.00 POLICY STATEMENT

1. The illegal use, sale, or possession of narcotics, drugs, controlled substances, or drug related paraphernalia, while on the job or on County property, will result in the employee's immediate termination. Any illegal substances will be turned over to the appropriate law enforcement agency and may result in criminal prosecution.

2. Employees who are under the influence of alcohol, or who possess, or consume alcohol on the job, have the potential for interfering with their own well being as well as their co-workers' and will be immediately subject to disciplinary action, including discharge.

3. Off-the-job illegal drug use will be proper cause for immediate termination of employment.

4. Employees undergoing prescribed medical treatment with a controlled substance should immediately report this treatment to the County Personnel Director. The use of controlled substances as part of a prescribed medical treatment program is naturally not grounds for disciplinary action. It is important for the County to know such use is occurring, and failure to report such use may result in disciplinary action, including termination.

5. Employees using prescription drugs which are considered controlled substances, shall:

- (a) Inform the County Personnel Director prior to using prescribed drugs or medication on the job.
- (b) Medication shall be in its original vial and shall be in the employee's name and shall have the doctor's name and the prescription number on the label, as well as the date of issuance.

260

- (c) Each prescription shall not be older than one (1) year of the date issued.
- (d) Employees shall only possess a reasonable amount of medication for a normal work shift.
- (e) The Employee whose name appears on the label of the vial shall not allow any other person/persons to consume the prescribed drug or medication. The employee shall not consume the prescribed drug or medication more often than as prescribed by the employee's physician and as set out on the label of the vial.

6. The County reserves the right to have its Administrator, Personnel Director, or the County's designated drug testing agency determine if use of the prescription drug or medication by an employee produces effects, which may increase the risk of injury to the employee, other employees, or the general public. If such a finding is made, the County reserves the right to restrict the work activity of the employee until such time as the County Personnel Director or the County's designated drug testing agency advises that the employee's ability to perform his or her job is no longer adversely affected by the consumption of said drug or medication.

6.00 APPLICATION OF POLICY

This policy pertains to illegal, controlled, and unauthorized drugs, alcohol, chemical substances, and employee assistance programs. For the purposes of the policy, the term "County Premises" includes all property, offices, facilities, land, buildings, structures, fixtures, installations, automobiles, trucks and all other vehicles and equipment, whether owned, leased, rented or used. Also, this policy includes all public properties, any other work locations or mode of transportation to and from those locations while in the course and scope of County employment or pay status.

7.00 CONFIDENTIALITY

- (1) All information, interviews, reports, statements, memoranda and test results, written or otherwise, received by the employer through its drug and alcohol testing program are confidential communications and may not be used or received in evidence, obtained in discovery, or disclosed in any public or private proceedings, except in accordance with this chapter.
- (2) Any information obtained by an employer pursuant to this chapter shall be the property of the employer.
- (3) An employer shall not release to any person other than the employee or job applicant, or employer medical, supervisory or other personnel, as designated by the employer on a need to know basis, information related to drug and alcohol test results unless:

- (a) The employee or job applicant has expressly, in writing, granted permission for the employer to release such information;
- (b) It is necessary to introduce a positive confirmed test result into an arbitration proceeding pursuant to a collective bargaining agreement, an administrative hearing under applicable state or local law, or a judicial proceeding, provided that information is relevant to the hearing or proceeding, or the information must be disclosed to a federal or state agency or other unit of the state or United States government as required under law, regulation or order, or in accordance with compliance requirements of a state or federal government contract, or disclosed to a drug abuse rehabilitation program for the purpose of evaluation or treatment of an employee; or
- (c) There is a risk to public health or safety that can be minimized or prevented by the release of such information; provided, however, that unless such risk is immediate, a court order permitting the release shall be obtained prior to the release of the information.

(4) The confidentiality provisions provided for in this section shall not apply to other parts of an employee's or job applicant's personnel or medical files.

(5) If an employee refuses to sign a written consent form for release of information to persons as permitted in this chapter, the employer shall not be barred from discharging or disciplining the employee.

8.00 ENFORCEMENT

8.01 SEARCHES AND INSPECTIONS

Leflore County reserves the right to conduct announced or unannounced on-the-spot managerial, supervisory, security searches and inspections of employees, persons and their effects (such as, but not limited to, lockers, baggage, briefcases, lunch boxes, food/beverage containers, desks, tool boxes, clothing and vehicles) for the purpose of determining if such employees are in possession, use, sale, transportation or concealment of any of the prohibited items and substances covered by this policy. - e. If an employee suffers an on-the-job injury, or following a serious or potentially serious accident or incident in which safety precautions were violated, unsafe instructions or orders were given, equipment or property was damaged, usually careless acts were performed or where the cause was due to the employee's failure to wear prescribed personal protective equipment while working on County property, or public property, or the violation of an established work rule.

6378 ORDER RECEIVING TRANSCRIPT OF PUBLIC HEARING
ON PROPOSED BUDGET HELD ON SEPTEMBER 6, 1994

LEFLORE COUNTY BOARD OF SUPERVISORS

PUBLIC HEARING ON PROPOSED BUDGET

BOARD MEMBERS IN ATTENDANCE

PHIL WOLFE

JAMES HOOPER

DR. WILLIAM STEWART

WILLIS BRUMFIELD

ALIX SANDERS

(The public hearing was held in the Board of
Supervisors' meeting room at the Leflore County
Courthouse, Greenwood, Mississippi, on Tuesday,
September 6, 1994, beginning at 4:00 P.M.)

1 (The meeting was called to order and opened with
2 an invocation by Dr. Stewart, President of the Leflore
3 County Board of Supervisors. Following the opening of
4 bids, the public hearing was begun as follows, to-wit:)

5
6 BY DR. BRUMFIELD: Dr. Stewart, the next item is
7 the public hearing on the county budget. The notice of
8 the hearing has been published in the Greenwood Common-
9 wealth in the manner and form required by law. I have
10 the proof of publication and the wording of the publi-
11 cation is as set forth in the statute enacted by the
12 Legislature in the Spring session, and I see some
13 persons that have expressed an interest in it at times
14 prior to the meeting.

15 So, we can commence with it, I have some
16 sheets, if anyone would like to ask questions. I will
17 make some general statements and then we can go from
18 that to more specific items.

19 The budget for the new year, proposed budget
20 for the new year, would provide for an increase in ad
21 valorem taxation of .87 mills for those persons that
22 live inside the City of Greenwood.

23 If you live in the rural area of the county,
24 outside of Itta Bena and outside of the City of Green-
25 wood, the increase will be 1.06.

26 The millage rate for the county school system
27 is down by 1.10. The increase in the rural area,
28 that's different from the county school system is the
29 millage of 1.29, which is a tax levee to retire

360

3

1 \$250,000.00 short term notes that were issued to defray
2 the cost of solid waste disposal until the landfill is
3 in place.

4 That increase is the only thing that is
5 different. Other than that, the proposed increase is
6 less than 1 mill for residents inside the City of
7 Greenwood, a little more than 1% of increase.

8 The budget for the new year, not counting
9 school budgets, is \$16,993,409.00. Of that approxi-
10 mately \$17,000,000.00, of that, 7.7 million comes from
11 ad valorem taxation, less than half of the budget.

12 The increases are rather specific, proposed
13 increases. .44 mills for raising approximately
14 \$50,000.00 to pay the cost of personal property re-
15 appraisal. That contract was \$50,100.00. .44 is the
16 increase there to service that obligation.

17 .12 increase was levied by the Commissioners
18 of the Yazoo Mississippi Delta Joint Water Management
19 District. They have independent taxing authority. The
20 Board of Supervisors does not levee that tax. The Tax
21 Collector collects it and submits it directly to the
22 Water Management Board.

23 We have an increase from .5 to .62, and of
24 the remainder there is a difference of .31, less than
25 1/3 mill.

26 In the sinking fund between those issues up
27 and those issues down, a net difference is .3, which
28 adds to a total of .87 increase, which, incidentally,
29 is the smallest tax . . .

1 BY MR. HOOPER: What did the sinking fund
2 wind up with, .3, with an increase of .3?

3 BY MR. BRUMFIELD: An increase of .3, .31.

4 In the sinking fund, that's utilizing
5 \$30,000.00 in annual rental receipts that we will
6 receive from our contract with the Department of Cor-
7 rections for their use of the County Restitution
8 Center. And we pledged that \$30,000.00 to retire the
9 debt incurred in the renovation and building across the
10 street that is being prepared for a juvenile holding
11 facility.

12 \$193,000.00 will be received by the County
13 from State Aid Road Department this next year, and our
14 county, is fortunate to receive that money to retire
15 bonds issued prior to July 1, 1994, for bridge repair.
16 So there will be no ad valorem taxation for that amount
17 of money, \$193,00.00.

18 And then \$75,000.00 from the sale of land in
19 the Industrial Park on the Roland tract of land which
20 is jointly owned by the City and the County. And if
21 that sale goes through, as it was discussed during
22 budget preparation time, that will go into the sinking
23 fund to retire that obligation in the coming year, the
24 note that will be due on that, principal and interest
25 on that note.

26 So that the net effect of change for the new
27 year is less than 1 mill, .44 for personal property re-
28 appraisal and .12 increase for the Water Management
29 District, and .31 for debt services, long term bonds.

FORM C-100 - LASER REPORTERS PAPER & MFG. CO. 800-828-6313

362

1 And that is the only increase.

2 BY DR. STEWART: Any questions?

3 BY MR. ANDERSON: Mr. Chairman, how much does
4 1 mill bring in in Leflore County?

5 BY MR. BRUMFIELD: A little over \$100,000.00.

6 BY MR. ANDERSON: How much proposed, overall,
7 did you say it would be, how many mills?

8 BY MR. BRUMFIELD: Less than 1 mill, .87.
9 Less than 1 mill.

10 BY MR. ANDERSON: How much new money is that
11 going to bring in?

12 BY MR. BRUMFIELD: All total, the ad valorem
13 requirements, that new property that has never been
14 assessed before, new construction from last year, the
15 purposes of the county budget that will be funded from
16 ad valorem taxation, will be a total of about
17 \$200,00.00. That's for all purposes, schools, debt
18 retirement for picking up garbage in the county, and
19 everything. But, in the general county area, where
20 that .87 mill increased is levied, less than
21 \$100,000.00. \$44,000.00 --- I mean, \$50,100.00 for the
22 personal property reappraisal; .12 mills, which is
23 about \$156,000.00 for the Water Management District,
24 and about \$40,000.00 for debt retirement, or about
25 \$100,000.00, a little less, is the increase countywide.

26 BY MR. ARANT: How much more money is coming
27 in on this proposal than what you have got to have?

28 BY MR. BRUMFIELD: About \$200,000.00 in ad
29 valorem expenditures more than last year.

1 BY MR. ARANT: What is the millage rate in
2 Leflore County?

3 BY MR. BRUMFIELD: If you live in the City of
4 Greenwood, in the present year, 65.9. For the proposed
5 new year, it is proposed to be 66.77.

6 The county school tax last year was 42.6. In
7 the new year, it is proposed to be 41.5, and the only
8 other difference would be for those persons who live
9 outside of Greenwood and outside of Itta Bena, where
10 the county picks up their garbage and we do not send
11 monthly statements or monthly billing, there is a 1.29
12 mill increase there, for solid waste disposal. So that
13 the total tax, if you live in Itta Bena, or if you live
14 outside of Itta Bena and outside of Greenwood, would be
15 113.5 in the present year and 114.56 in the new year,
16 for an overall increase of 1.06. That would include
17 the tax levee for solid waste disposal.

18 BY MR. ARANT: In other words, y'all are
19 proposing to raise \$200,000.00?

20 BY MR. BRUMFIELD: There would be an increase
21 of about that much more money, yes, sir.

22 BY MR. ANDERSON: Well, I found there is
23 always a lot of fat in the budget. Isn't there some
24 place where y'all can cut down on that.

25
26 BY MR. ARANT: It is always easier to spend
27 the other man's money.

28 BY MR. BRUMFIELD: Well, with public money,
29 it is all somebody else's money.

364

7

1 BY MR. ARANT: I know it is.

2 BY MR. BRUMFIELD: But, there have been
3 tremendous decreases but there have also been increases
4 in certain budgets, and for reasons that the Board felt
5 was justifiable.

6 BY MR. SCALES: My question is that, I will
7 put it this way: Is it on record that y'all will look
8 at any other areas where you could decrease taxes
9 before you increase taxes?

10 BY MR. BRUMFIELD: Yes, sir.

11 BY MR. SCALES: It is on the record?

12 BY MR. BRUMFIELD: A record, including a film
13 of this conversation is being made at this time, and
14 the Board, for instance, in general county, the total
15 of the entire general county operation was cut
16 \$21,000.00. Now, within that area, some were cut as
17 much as \$112,000.00, \$90,000.00, some departments.
18 Some departments were increased \$140,000.00, but there
19 was justification for both the increase and decrease.

20 And of a budget that last year was over five
21 and a half million, it is \$21,000.00 less this year
22 than last year, which is a very small per cent of
23 change, whether up or down, but there was some signi-
24 ficant reductions in the five and a half, 5.6 million
25 dollar general county budget last year. But there were
26 some increases also. But, as I said, things that were
27 justifiable in both cases.

28 BY MR. HENDERSON: How long has it been since
29 you had an increase in millage?

365

1 BY MR. BRUMFIELD: Last year.

2 BY MR. HENDERSON: You increased it last
3 year? How much did you increase it then?

4 BY MR. BRUMFIELD: I would have to go back,
5 Jimmy, and look. As I recall, it was . . . I would
6 have to go back and look at it. I didn't bring those
7 figures with me.

8 BY MR. HENDERSON: Have you compared the
9 millage, total millage with other counties, surrounding
10 counties?

11 BY MR. BRUMFIELD: No, sir. We only govern
12 in this county. I don't know what their circumstances
13 are.

14 BY MR. HENDERSON: I thought you might like
15 to know what other counties millage was running.

16 BY MR. BRUMFIELD: No, sir.

17 BY MR. HENDERSON: I own property in four
18 other counties, three other counties, rather. They are
19 close by, Grenada, Oktibbeha and Hinds, and Washington
20 County. Leflore is 26% higher than Washington County.
21 They have a total of 52.20 mills in Washington County.
22 That's the highest one I have to make a comparison
23 with. It is 41% higher than Grenada. Grenada County
24 is 19.45 mills less. Oktibbeha County, it is 73% high-
25 er. And Hinds county is 105, more than twice. I
26 thought you might like to know that.

27 BY MR. BRUMFIELD: In each county there are
28 circumstances that affect their revenues differently.
29 For instance, in this county, the budget that we are

366

9

1 talking about, less than half that budget comes from
2 taxation. 16.9 million and less than 8 comes from
3 taxation in this county. Now, in other counties,
4 perhaps they are receiving other benefits. In counties
5 that have rather large municipalities, a large area
6 that the county funds, perhaps, here, is funded by
7 Hinds County municipalities. The City, perhaps has an
8 effect. Perhaps in Washington County they have sources
9 of revenue that this county does not have. Perhaps the
10 casino boats, I don't know.

11 BY MR. HOOPER: Every county he named is
12 having more growth than this county, too.

13 BY MR. BRUMFIELD: As far as making compari-
14 sons, after I got through comparing it, I still, other
15 than making an interesting observation, that would have
16 no bearing upon the operation of the circuit court of
17 this county, the jail or the number of miles of road in
18 this county, or the bridge construction project that is
19 under way, because I don't know what they are doing
20 there and what their circumstances are. I know what
21 our needs are.

22 BY MR. ARANT: If I remember correctly, and I
23 could be wrong in my figures, but back about 1990, our
24 millage was considerably less than what it is right
25 now. Do you remember the figures?

26 BY MR. BRUMFIELD: I have all that over in
27 the office.

28 BY MR. ARANT: James, you remember us talking
29 about all that?

1 (Mr. Brumfield calls for additional records)

2 BY MR. BRUMFIELD: Keep in mind, Mr. Arant,
3 the laws change that govern how property is assessed.

4 BY MR. ARANT: I understand.

5 BY MR. BRUMFIELD: And if the funding level
6 is to remain, say, fairly constant in a department
7 there cannot be budgeted for control. For instance,
8 there are some agencies of the county that the Board
9 funds, but they don't control the budget. And so, if,
10 the Legislature or the Tax Commission has a tremendous
11 decrease in the assessed value of farm land, if you are
12 to fund at the same level, schools and libraries and
13 debt service on outstanding bonds issued for the hos-
14 pital or for whatever purpose, or for the junior col-
15 lege at Moorhead, you raise the millage and you bring
16 in the same dollars. That happens and it happens
17 regularly because assessed value of farm land went down
18 again this year.

19 BY MR. ARANT: When was our last reappraisal?

20 BY MR. BRUMFIELD: It was completed in '85.

21 BY MR. ANDERSON: That's not the city, is it?

22 BY MR. BRUMFIELD: The county and the city.

23 BY MR. HENDERSON: In 1985 you added consid-
24 erably more on the tax rolls.

25 BY MR. BRUMFIELD: Right. There have been
26 very few decreases. I mean increases. There have been
27 a lot of decreases in assessments since then. In '92,
28 the millage rate was 64.65, for instance, and in '93,
29 70.9.

368

11

1 BY MR. ANDERSON: Can you give us the total
2 overall, because we have got to pay that 114 for last
3 year.

4 BY MR. BRUMFIELD: Right. It would be 114.56
5 total, over all.

6 BY MR. ARANT: All right. How much was it in
7 '90?

8 BY MR. BRUMFIELD: Let me get back to my
9 page. Okay. In 1992, it was 113.02, schools and
10 county, 113.02. The next year, . . .

11 BY MR. ARANT: Let' go back to '90. Can you
12 start with '90?

13 BY MR. BRUMFIELD: Sure.

14 BY MR. HENDERSON: And give it to us sepa-
15 rate, too, the school and the part for the county.

16 BY MR. BRUMFIELD: Okay. In '90, it was
17 58.58, and the school was 35.62.

18 BY MR. ANDERSON: I thought for the schools
19 you had to have special rules or something to go over
20 28.

21 BY MR. BRUMFIELD: To go over what?

22 BY MR. ANDERSON: 28 mills.

23 BY MR. BRUMFIELD: No, sir, not that I am
24 aware of. The assessed value of the county went down
25 between '91 and '92 by over a million dollars, also.

26 BY MR. HOOPER: As I started to say a few
27 minutes ago, some of these counties you mentioned,
28 Jimmy, they are having growth in real property where
29 this one has been flat and reduced. And if you have

1 got a tremendous reduction, I mean, rise in your
2 assessed valuation, well, of course, everything else
3 being equal, that cuts your millage automatically.

4 BY MR. HENDERSON: That's the reason I asked
5 what the valuation was.

6 BY MR. BRUMFIELD: See, in '89, the assessed
7 value of real property was \$79,667,000.00. And in '93,
8 that same property was here, it hadn't been gotten up
9 and carried across the county line, the land was still
10 here, but the way in which it is assessed, which is a
11 formula described by law, that 79.6 million was 77.7
12 million and it was the same farm land. But the factors
13 that go into how it is assessed had changed.

14 BY MR. LOTT: So we paid on 2 million dollars
15 more by raising the millage?

16 BY MR. BRUMFIELD: Right.

17 BY MR. LOTT: And had no growth in the county
18 at that time, no --- you didn't do any reappraising on
19 any of the other real property, other than farm land?

20 BY MR. BRUMFIELD: The values on all of it
21 was maintained, but the only class of property that got
22 a significant decrease was farm property, and it has
23 for about three years in a row.

24 BY MR. HOOPER: And that is done by the
25 Extension Service.

26 BY MR. BRUMFIELD: The Extension Service
27 provides information . . . and Tax Commission. It is
28 based on known sales, yield and commodity prices, the
29 yield and what it is worth and what the land is selling

370

13

1 for. But there is only, there is about a mill dif-
2 ference between what it was two years ago and what it
3 is for the coming year, for the county taxes.

4 BY MR. HENDERSON: That's not much increase
5 for a year's time, but if you look back to 1990 and
6 1994, you have got a 20% increase in millage. That's a
7 pretty good increase.

8 BY MR. BRUMFIELD: That doesn't necessarily
9 mean 20% more tax dollars. In some ways it does. It
10 depends on what tax district that you are in.

11 BY MR. LOTT: Do you have any carry over from
12 the prior year's budget?

13 BY MR. BRUMFIELD: Yes, sir, I would say
14 about a million and a half. The working cash balance
15 in the county is about a million and a half, a million
16 and a half, a million and three quarters.

17 BY MR. LOTT: That would be your cash balance
18 after the fiscal year, 1994-95's budget?

19 BY MR. BRUMFIELD: Yes, sir. On those sheets
20 you picked up earlier today it is going to be the
21 bottom figure in the right column that says, "Ending
22 Balance, 9/30/95" It is estimated to be \$1,534,611.00
23 this time next year.

24 BY MR. LOTT: Why do we need to increase
25 taxes?

26 BY MR. BRUMFIELD: Pardon me?

27 BY MR. LOTT: Why do we need to go up on the
28 taxes to raise \$120,000.00 when at the end of this
29 budget you still have a million and a half dollars?

1 BY MR. BRUMFIELD: That's the working cash
2 balance and a lot of that is sinking fund balances and
3 you can't spend that.

4 BY MR. LOTT: A lot of people have to have
5 working cash to pay the bills.

6 BY MR. BRUMFIELD: Yes, sir. I assure there
7 is no way you can take any of the debt reserve money
8 and pay for reappraising of property.

9 BY MR. LOTT: That's true, but what per-
10 centage of that is set aside for debt reduction? Is
11 all of that allocated out for debt reduction?

12 BY MR. BRUMFIELD: No. It is on the line
13 item --- you picked up those sheets this morning.
14 About \$537,000.00 is estimated to be in the general
15 county fund, \$22,000.00 in emergency medical service
16 grant, which you can't spend for other purposes,
17 \$3200.00 in the law library, Sheriff's Narcotics fund,
18 roughly \$5,000.00, mapping and reappraisal,
19 \$114,000.00, the Fire Protection Fund, about \$5500.00.

20 BY MR. LOTT: But you are talking about two
21 and a half times the estimated shortfall is going to be
22 on hand. I don't see why you need to raise taxes in
23 you are in that kind of shape.

24 BY MR. BRUMFIELD: Because the purposes for
25 which we are raising taxes are the mapping and
26 reappraisal.

27 BY MR. LOTT: That's \$53,000.00. There's
28 enough in the millage every year to take care of that.

29 BY MR. BRUMFIELD: We can't take any of that

372

15

1 money and pay for the .12 increase in the Water Manage-
2 ment District.

3 BY MR. LOTT: But that's cut in half and you
4 have got . . .

5 BY MR. BRUMFIELD: I would not recommend to
6 this Board that they reduce the working cash balance or
7 any of the debt service funds, because they were very
8 carefully calculated.

9 BY MR. LOTT: I am not talking about that, I
10 am talking about the \$537,000.00 that you said was not
11 set aside for that.

12 BY MR. BRUMFIELD: No, the \$537,000.00 in the
13 general county fund --- if the Board reduces that, I
14 would recommend that they not do it. I know from
15 experience about what it takes on a monthly basis to
16 run this county, and I would not go below that. That's
17 what it would be on the first day of October of '95.
18 There will be no ad valorem taxes collected around here
19 until somewhere around Christmas. We have to run the
20 county October, November and most of December on that
21 amount of money. I would not reduce it much more than
22 that. If at all, it wouldn't be an appreciable amount.
23 You can't run the county on the sinking funds. And
24 that half a million up there, roughly \$400,000.00 in
25 the Road Department, I certainly would not recommend
26 going below those two figures. And if you did, based
27 on just historical prospective here, you could very
28 well end up, in the course of a year, on tax antici-
29 pation notes, where you have got payrolls, debts to

1 pay, and insurance to pay, and receipts are coming, but
2 they are not there yet. There will be there in sixty
3 or ninety days, millions of them, but they won't be
4 there between October and January.

5 BY MR. LOTT: Of course, on a \$17,000,000.00,
6 it is hard to believe that there isn't some place to
7 find \$120,000.00.

8 BY MR. BRUMFIELD: You will be spending
9 somebody else's money because, like I said, you can't
10 spend the sinking fund money for those purposes and I
11 sure am not going to recommend to the Board that they
12 go down any lower on general county or on the Road
13 Department.

14 BY MR. LOTT: Of course a lot of those
15 things, someone asked you about, had you cut everything
16 you could and you answered you had cut one by
17 \$112,000.00. That \$112,000.00 was, as I understand it,
18 was a one time expenditure.

19 BY MR. BRUMFIELD: It was.

20 BY MR. LOTT: Some of these other expendi-
21 tures have come out because the state has started
22 funding some of the court administrator's fees.

23 BY MR. BRUMFIELD: That's correct.

24 BY MR. LOTT: Basically, we have actually
25 saved money because there are other revenues coming in
26 to take the place of these.

27 BY MR. BRUMFIELD: In some instances.

28 BY MR. LOTT: You are really having a larger
29 increase than what you are saying. If you take your

374

17

1 beginning balance and look at the money that you have
2 got and take your ending balance less, actually, you
3 are budgeting, or you are spending more than what is in
4 the budget, aren't you?

5 BY MR. BRUMFIELD: Spending more than what is
6 in the budget?

7 BY MR. LOTT: What's in the budget, in other
8 words, more than what you plan to raise in revenue.
9 Your cash balance on '94-'95 . . . What will that be?
10 It is over four million, isn't it?

11 BY MR. BRUMFIELD: Yes, but if you will look
12 at that money, that's not all ad valorem taxes.

13 BY MR. LOTT: I understand that. If you are
14 going from four and a half million to the end of the
15 year and having one and a half, that doesn't anything
16 to do with this money here, does it?

17 BY MR. BRUMFIELD: Yes, it has everything to
18 do with it. The money that we are starting off with?
19 The proceeds from the sale of general obligation bonds
20 this year for construction projects will be completed
21 in the next fiscal year, and the money will not be
22 there, nor will the obligation be there next year. But
23 if you sell a million and a half in bonds and put it in
24 the bank, it is in the working balance at the end of
25 this year. But we will have completed the construction
26 of roads and paid the obligation and that working cash
27 balance will not be there this time next year, nor will
28 the appropriation or the need for it be there, because
29 there is about four million in there this year in that

1 same category and about a million and a half next year.
2 Those obligations will have been fulfilled. I wouldn't
3 take that . . .

4 BY MR. ANDERSON: We can expect a decrease
5 the next year, then?

6 BY MR. BRUMFIELD: No, sir. I would not draw
7 that conclusion from that statement.

8 BY MR. LOTT: We have got departments that
9 are up 20, 30, 40% all over the place.

10 BY MR. BRUMFIELD: Some of those, Ricky is in
11 the room. It has been well publicized, the Board's
12 commitment to enlarging the staff in the Sheriff's
13 Department.

14 BY MR. LOTT: There is nobody in this county
15 that will say anything against that. We are totally
16 supportive of that.

17 BY MR. BRUMFIELD: That figure is in there.
18 There is a figure on jurors. It was \$12,000.00 last
19 year. It is \$50,000.00 this year. It is expected to
20 be \$80,000.00 next year. The Board has absolutely no
21 control over that whatsoever. There will be as many
22 jurors as there are needs for juries. And what we used
23 to fund with \$12,000.00, we have to raise \$80,000.00
24 for next year. And that is based upon the operation of
25 the court, the crimes committed, the trials that are
26 scheduled, and also the Legislature increased the
27 minimum per diem to pay a juror from \$15.00 to \$25.00.
28 Now, I don't think they are holding court up there just
29 for the fun of spending money on juries, but that is a

376

19

1 significant increase. But, it is from \$12,000.00 to
2 \$80,000.00. That's real money.

3 BY MR. ARANT: Is a lot of that due to the
4 fact that there will be no plea bargaining?

5 BY MR. BRUMFIELD: I believe it is.

6 BY MR. ANDERSON: How much of that money is
7 allocated for a raise?

8 BY MR. BRUMFIELD: Which amount of money are
9 you talking about?

10 BY MR. ANDERSON: Of the proposed raise?

11 BY MR. BRUMFIELD: There are no salary in-
12 creases in any of these figures here. The Board has
13 discussed, in the budget preparation that on January
14 1st, there would be sufficient funds after taxes were
15 collected and barring some perhaps unforeseen expendi-
16 ture, to address salary increases at that time. There
17 was a salary increase in January a year ago of 5%,
18 roughly, and I would anticipate something very similar
19 to that this next year.

20 BY MR. ANDERSON: I have no objection to
21 raises.

22 BY MR. BRUMFIELD: None of these figures
23 provide for funding a salary increase. A lot of that
24 is going to depend upon other factors.

25 BY MR. LOTT: Basically, you are going to
26 fund that out of the five hundred and thirty something
27 thousand.

28 BY MR. BRUMFIELD: There is more to it than
29 that. When I say unforeseen expenditures, I cannot

1 tell you what it will cost us to construct the land-
2 fill. Me and ten thousand angels saying prayers at
3 the same time can't give you that answer. If we go
4 down into that five hundred thousand dollars, we are
5 going underfund the operation of the county. We have
6 finally gotten a permit to construct the landfill. At
7 the same time, we are providing an inert landfill for
8 the City of Greenwood and Leflore County and funding
9 its operation entirely. I don't know what yet will be
10 spent before both of those are fully developed, with
11 scales and full time staffing and fully constructed,
12 with lights and maintenance buildings. But that's how
13 money . . .

14 BY MR. LOTT: What I am asking, there are no
15 salary increases in the budget, but y'all hope to
16 address that in January. Well, obviously you are going
17 to address it out of some other funds that are not in
18 the budget and that's the only other funds that I knew
19 of, the five hundred and thirty seven.

20 BY MR. BRUMFIELD: In the general county
21 area, it would come from that fund. In the Road
22 Department, it would come from that fund. That is
23 depending upon the cost yet to be incurred in several
24 areas, such as the operation of the juvenile holding
25 facility. We have reason to believe we may get a grant
26 to defray the cost of salaries and part of the equip-
27 ment. We make application after the 1st of October,
28 in the new fiscal year. There is no guarantee it will
29 be funded. If it is, that's good, it will relieve,

1 perhaps, some pressure on the budget. If not, we have
2 to fund it.

3 I do not know what it is going to cost yet,
4 to overcome some impediment with the 3rd permit we have
5 to have with the landfill. But there is a little
6 problem there.

7 But barring how those things turn out, bar-
8 ring some disaster in how those things turn out, the
9 Board would like, in January, to give a 5% raise. But
10 they have not raised taxes to give a raise in January.

11 We are still trying to work through some
12 other things, such as the holding facility. It will be
13 staffed night and day. We have never run one before
14 and have no experience in that operation. We can't
15 tell you what the budget for it would be.

16 BY MR. LOTT: I think you need that, myself.

17 BY MR. CLARK: Will there be an income from
18 the landfill?

19 BY MR. BRUMFIELD: Yes, sir, in time.

20 BY MR. CLARK: You know, when I am disposing
21 of roofing and all, it is a real expensive. The one
22 over at Kosciusko, I think there is about \$100.00 just
23 to dump a truck.

24 BY MR. BRUMFIELD: We charge nothing. We
25 don't charge anything out there.

26 BY MR. ANDERSON: Why did the Board of Super-
27 visors and all of them let that get in the shape it is
28 in? Didn't they foresee all of this coming?

29 BY MR. BRUMFIELD: They have worked on it for

1 several years, Mr. Anderson.

2 BY MR. ANDERSON: It looks like somebody has
3 been sitting on their . . .

4 BY MR. HOOPER: Are you talking about just
5 holding the land?

6 BY MR. ANDERSON: About getting permits and
7 all that.

8 BY MR. HOOPER: Did you say we were just
9 sitting there holding the land?

10 BY MR. ANDERSON: I said why hasn't something
11 been done about this landfill before now, before the
12 government made you do something?

13 BY MR. HOOPER: We were waiting on them to
14 make the regulations.

15 BY MR. HEY: How much would that 5% pay
16 increase, salary raise, how much is that, for the whole
17 county?

18 BY MR. BRUMFIELD: We made some cost pro-
19 jections on that, because it is not a full fiscal year.
20 We would be starting in January. (Asks for figures to
21 be brought) It would take effect, start January 1st,
22 payable February 1st. We made those calculations
23 shortly after we got the new rates for insurance and
24 everything, as we will be paying part of that.

25 BY MR. WOLFE: I have a few questions myself,
26 because I am not real familiar with this. I am just
27 going to go down through the budget here on some things
28 I see. I don't understand them. You can probably
29 explain it to me.

1 Like, in the purchasing department, I see
2 clerical salaries going up about 50%.

3 BY MR. SANDERS: What page are you on, Phil?

4 BY MR. WOLFE: Budget expenditures.

5 BY MR. BRUMFIELD: Okay, the estimate, we
6 started in January.

7 BY MR. SANDERS: The budget worksheet, expen-
8 ditures.

9 BY MR. BRUMFIELD: We started in January and
10 increased it by 5%. It would be \$89,664.00 for the
11 remainder of the fiscal year, payable February 1st,
12 March, April, May, June and the last payment would be
13 charged to that fiscal year the September 1st pay
14 check. \$89,664.00.

15 BY MR. HOOPER: That's nine months?

16 BY MR. BRUMFIELD: Right.

17 BY MR. HEY: From then on you are going to
18 have to fund that next year, with what, a millage
19 increase or cost savings within the department that
20 would off set . . .

21 BY MR. BRUMFIELD: Sometimes there are,
22 sometimes staff reductions. There was a 5% increase
23 last year and I don't think there was a salary increase
24 at all the year before that. The year before that, we
25 got 5%.

26 BY MR. ARANT: 5% across the board?

27 BY MR. BRUMFIELD: The way the Board has done
28 that in the past, is not that every employee has gotten
29 a 5% raise in all departments. In some instances, the

1 budget line item for wages for a department was in-
2 creased by five and then that department head, at his
3 or her discretion, could determine who got . . . for
4 instance, you may have somebody that just went to work
5 there the month before, and they wouldn't get a 5%
6 raise. Maybe they had been there for three weeks. If
7 somebody had been there for the full year, they would
8 get a 5% raise. Some of the salary increases are
9 statutory.

10 BY MR. HOOPER: I thing you had some legis-
11 lation on that that allowed the department head discre-
12 tion on that.

13 BY MR. WOLFE: I saw here, clerical salaries
14 for purchasing and administration, a 50% increase.

15 BY MR. BRUMFIELD: That's a person to begin
16 in the middle of the fiscal year, as an assistant down
17 there, and this is for the whole year.

18 BY MR. WOLFE: Okay. I have got a few more.
19 The Special Master's fees, the Lunacy Court, are they
20 using the Special Master?

21 BY MR. BRUMFIELD: Yes, sir. The way the
22 Lunacy Court operates, and that applies, the word
23 lunacy is a term for that deployment, but it applies to
24 drug and alcohol cases, also. If a family member,
25 husband, wife, child, next door neighbor, or whomever,
26 comes in and makes an affidavit that they have a family
27 member, neighbor, whomever, in need of mental evalua-
28 tion for commitment to the State Hospital at Whitfield,
29 they make out an affidavit to that effect on a form

FORM C-100 - LASER REPORTERS PAPER & MFG. CO. 800-526-6313

382

25

1 prescribed by law. Then we appoint an attorney, this
2 procedure is described by law, we appoint an attorney
3 to represent them, because if they are committed, they
4 are deprived or stripped of their civil rights during
5 that period of commitment. We have to appoint an
6 attorney to represent them, and that attorney schedules
7 an evaluation for them at Region VI Mental Help, or
8 Life Help. If, after the evaluation, it is recommended
9 they be committed, a Special Master is then appointed,
10 and a hearing is conducted and if, as a result of the
11 hearing, and the witness and the evidence and the
12 doctor, they are to be committed, then they are sent to
13 the State Hospital or to some other institution. The
14 increase in that area, is largely, I know the Sheriff
15 will bear this out, it has been more on the area of
16 drugs, wouldn't you say, than mental cases?

17 BY SHERIFF BANKS: Yes, sir.

18 BY MR. BRUMFIELD: And I do not foresee a
19 change in that. It is significantly up over recent
20 years and we do save considerably now that we do not
21 have to pay the hospital. But, there are many more
22 cases now than there were just three or four years ago.

23 BY MR. WOLFE: Okay. Like the Law Library,
24 \$1,000.00 for a computer. They don't have a computer.
25 That's kind of confusing to me. I don't understand
26 where that money goes.

27 BY MR. BRUMFIELD: The Law Library, as you
28 know, is funded through the assessments on civil cases
29 in Circuit and Chancery Court and Justice Court and

1 County Court. The Law Librarian receives, I believe,
2 \$200.00 a month salary for handling the work of keeping
3 it up there, and for computer services, the WestLaw
4 Computer has provided services in the past. But that
5 system . . .

6 BY MR. SANDERS: It is still up there.

7 BY MR. BRUMFIELD: As far as I know, it is
8 still accessed primarily by Judge Wheatley. I see him
9 using it a good bit.

10 BY MR. WOLFE: They have a computer? I
11 didn't know they had a computer.

12 BY MR. BRUMFIELD: Most of that money goes to
13 books and periodicals, and most of those periodicals
14 are on a subscription basis so that you get annual
15 updates and you have to throw away last year's law
16 because it is out of date and up date it with a volume
17 this year that has last year, plus amendments.

18 BY MR. WOLFE: This is probably to the Sher-
19 iff, or you either, jail, cable TV? I didn't know.

20 BY SHERIFF BANKS: That's \$25.00 a month.

21 BY MR. WOLFE: Is that for the prisoners?

22 BY SHERIFF BANKS: Yes, sir. That saves us a
23 lot of trouble. I would rather see them watching TV
24 than fighting and killing each other.

25 BY MR. WOLFE: And 25% increase in the medi-
26 cal.

27 BY SHERIFF BANKS: That could be, well, we
28 had one that had a heart attack. He was in the hos-
29 pital for about a month, month and a half. We had one

384

27

1 that killed the deputy. He was in the hospital for two
2 months, or whatever. And medical, it is just hard to
3 tell. You have got a hundred and something prisoners,
4 so you don't know who is going to be sick and who is
5 not. So, it goes up and down.

6 BY MR. WOLFE: Food Network. I see in '93
7 and '94, we funded it and this year we budgeted
8 \$6,000.00 for it.

9 BY MR. BRUMFIELD: Correct. Because some
10 gentlemen came to us with that from down at Jackson,
11 and asked that we request local and private legislation
12 to enable the county to help fund the main building or
13 warehouse in Jackson that provides food for the Food
14 Pantry. So, we got this act passed this last year in
15 the Legislature and all of the counties that have a
16 food bank or a food pantry in their county, Dr. ---
17 what is his name? My mind is just blank.

18 BY MR. HOOPER: Alford.

19 BY MR. BRUMFIELD: They met here with us.
20 Dr. Alford.

21 BY MR. WOLFE: That's all I have got right
22 now.

23 BY MR. ANDERSON: Mr. Brumfield, I would like
24 to make a statement. I am not against raises. I was
25 always glad to get one myself, when I worked for all
26 those years. I think if y'all would look at the bud-
27 get, you would find where there is a lot of fat that
28 you could cut out. When it comes to raises, I have
29 been paying taxes in this city since 1932.

1 BY MR. BRUMFIELD: But you recall I said
2 there is no increase in taxation for the general county
3 fund or for the road department. Both of those millage
4 rates are proposed to be unchanged in the new year.
5 And those are two departments that would fund salary
6 raises if there were any. There is no increase in
7 taxation for those two departments.

8 BY SHERIFF BANKS: Carl, he found my fat. He
9 cut it out.

10 BY MR. LOTT: There was a bond issue what,
11 last year, and that was to pay for some road construc-
12 tion and building renovation.

13 BY MR. BRUMFIELD: Yes, sir.

14 BY MR. LOTT: Which building did that reno-
15 vate?

16 BY MR. BRUMFIELD: Right across the street,
17 the old Welfare Department.

18 BY MR. ANDERSON: What is that going to be?

19 BY MR. BRUMFIELD: A juvenile holding
20 facility. That building is being renovated and then
21 the space between that building and the old Health
22 Department, there is new construction in there. It
23 will be the main entrance and elevator and restrooms.

24 BY MR. LOTT: Let me ask you this: A moment
25 ago you said the way you would fund these raises, you
26 were hoping to get a grant from the government to pay
27 for the juvenile detention center.

28 BY MR. BRUMFIELD: That's for its operation.

29 BY MR. LOTT: Its operation.

386

29

1 BY MR. BRUMFIELD: The bond issue was our
2 strictly brick and mortar money. It is not cots and
3 blankets and all that kind of stuff, nor the increased
4 insurance and that stuff that goes along with operating
5 something like that, or the staffing of it.

6 BY MR. LOTT: Is this something that was
7 mandated?

8 BY SHERIFF BANKS: Yes, sir. They passed a
9 statue last year, but they didn't fund it.

10 BY MR. LOTT: Fund it?

11 BY SHERIFF BANKS: For the state to reimburse
12 the county. They didn't fund it. They have got the
13 law, but they don't have the money.

14 BY MR. BRUMFIELD: They passed a law that
15 said any county that built one would get \$1.00 per head
16 per capita, annually, to defray the cost of construc-
17 tion, but they just didn't appropriate that dollar. We
18 should have gotten \$48,045.00 a year, to pay for it,
19 but they didn't fund the money.

20 BY MR. LOTT: If they do come back and fund
21 that, will that automatically go to the bond retire-
22 ment?

23 BY MR. BRUMFIELD: Yes, sir, just like they
24 did, and I am very thankful that they did, pass the
25 law, that has what we call the Green amendment, Jimmy
26 Green sponsored an amendment to the Legislature that
27 enables counties, and I think Leflore is the only
28 county in Mississippi that will qualify for it,
29 counties that issued bonds prior to July 1 of '94, the

1 law didn't take effect until July 1 of '94, so you
2 would have to issue that bond real quick, and we had,
3 about four years ago, we issued about \$200,000,000.00
4 in bridge bonds and repaired a lot of bridges. We have
5 been taxing to retire that bond, but under this new
6 law, counties that have issued bonds for bridge con-
7 struction will receive an amount of money they can
8 apply to retire the debt on the bonds, so we will be
9 getting about \$190,000.00 this next year for that. We
10 won't levy a tax for it. We will use that \$192,000.00
11 or \$193,000.00.

12 BY MR. ARANT: That ought to make taxes go
13 down a little bit.

14 BY MR. BRUMFIELD: For that purpose it would.
15 That's the reason I say, in the sinking fund. Between
16 what went up and what went down, there was a net dif-
17 ference of .31 and that's bonds issued for every rea-
18 son, every purpose that's on the books. All of them.
19 We opened bids just thirty or forty minutes ago to
20 renovate the fire station and city hall at Schlater,
21 which is part of a commitment to update all of the fire
22 departments in the county. All of the hospital bonds,
23 all of the road and bridge bonds, plus civic center
24 bonds, every bond that is on the books. The total
25 difference in retiring that for next year compared to
26 this year is .31.

27 BY MR. ARANT: How many bonds are outstanding
28 against the county, general obligation bonds for the
29 county? I am not talking about revenue bonds and

388

31

1 things like that?

2 BY MR. BRUMFIELD: I have got right here
3 before me, the amount that is due for debt retirement
4 in the next year, but the total amount is
5 \$9,110,000.00. That's road bonds, bridge bonds,
6 airport bonds, nursing home bonds, hospital bonds,
7 everything.

8 BY MR. ARANT: That's not bad.

9 BY MR. BRUMFIELD: No, sir. It means a lot
10 of money. It would be a lot of money if I owed it, but
11 for a county with about \$128,000,000.00 in assessed
12 value, with a 20% debt capacity, we owe a relatively
13 small per cent of our capacity to incur debt.

14 BY MR. ARANT: Willis, it has been my experi-
15 ence that you are talking about pay increases and
16 things like that, that it takes about a third of the
17 salary the individual draws to fund all the benefits
18 that go along with it?

19 BY MR. BRUMFIELD: About 27%.

20 BY MR. ARANT: Is that what it runs here?

21 BY MR. BRUMFIELD: Uh-huh. That figure I
22 gave while ago, that includes everything, \$89,644.00.

23 BY MR. ARANT: That would be benefits, too?

24 BY MR. BRUMFIELD: Yes. If anyone would like
25 to actually see that, those calculations are right
26 there. That has all been figured.

27 BY MR. HOOPER: You know, on these bridges, a
28 lot of people don't know it, this county has more miles
29 of bridges, more miles of bridges, than any county in

1 the state, and with our ongoing, I would say right now,
2 Mr. Willis might shed some light on it. I would say
3 that right now we are in better shape on bridges than
4 practically any county in the state. When we finish up
5 this other bond issue, we will be ahead of all of them.
6 And this will be something, the way we are fixing these
7 bridges, this is, this will last out two or three bond
8 issues, you know what I mean, the life expectancy.

9 BY MR. ARANT: I will have to disagree with
10 you on some fronts because they built one two years ago
11 in front of my house where the pilings are coming out
12 from under it right now. The road is closed.

13 BY MR. WOLFE: Which one is that?

14 BY MR. ARANT: That's the one just south of
15 Highway 8, that runs east and west.

16 BY MR. HOOPER: In Leflore County?

17 BY MR. ARANT: Right.

18 BY MR. HOOPER: What kind of piling is under-
19 neath it?

20 BY MR. ARANT: It is a concrete piling that
21 was driven in there and . . . Phil, I thought you knew
22 about it.

23 BY MR. WOLFE: No, I don't.

24 BY SHERIFF BANKS: It is down there by the
25 county line, isn't it, Buddy?

26 BY MR. ARANT: Yes, the second bridge from
27 the county line, coming back east.

28 BY MR. WILLIS: And it was built two years
29 ago?

390

33

1 BY MR. ARANT: Well, whenever we floated that
2 bond issue, two million dollars.

3 BY MR. BRUMFIELD: '91 or '92.

4 BY MR. HOOPER: I didn't even know we used
5 any concrete pilings on those bond issues.

6 BY MR. WILLIS: We didn't use any concrete
7 pilings.

8 BY MR. ARANT: Maybe it is a creosote piling.

9 BY MR. WOLFE: What road is that?

10 BY MR. ARANT: I don't know the number.

11 BY MR. HOOPER: Not, it is steel, if it came
12 out of that bond issue. It is epoxy coated steel if it
13 came out of that bond issue.

14 BY MR. WILLIS: It is epoxy painted steel if
15 it came out of that bond issue.

16 BY SHERIFF BANKS: Phil, he is talking about
17 the road that comes from behind the school, goes by the
18 school, to the left, I think is what he is talking
19 about.

20 (Off record discussion of bridge)

21 BY MR. SANDERS: I suggest we inspect that
22 bridge immediately.

23 BY MR. BANKS: Isn't that the road that runs
24 into that county line road?

25 BY MR. ARANT: The road runs into county line
26 road, and it is an extension of Britt Road.

27 BY MR. WOLFE: I know what you are talking
28 about now.

29 BY MR. SANDERS: One of the things we antici-

1 pated in floating that bond issue was the extreme
2 exposure we had on our bridges and it just couldn't
3 wait. Just one accident on a bridge could cost us way
4 more money than we spent on repairing most of them.
5 But if we have got a bridge out there that needs to be
6 inspected, then I think we ought to go ahead and do
7 that, because that's the very thing we were trying to
8 alleviate to begin with, and with the refunding of the
9 money we spent, I think we made the right choice and we
10 haven't had a major accident. We, of course, are
11 trying to provide fire protection for people in the
12 rural areas and you just can't run a fire truck across
13 a rickety bridge without exposing somebody. I think we
14 made some solid choices I think we got the dollar for
15 the money spent. If we have got any more out there or
16 even one out there with that kind of exposure, we need
17 to find it correct it.

18 BY MR. ARANT: I have no fault with the bond
19 issue.

20 BY MR. HOOPER: Buddy, that bridge will be
21 checked on this afternoon.

22 BY MR. WILLIS: I won't let dark come until I
23 look at the bridge.

24 BY MR. ARANT: Sir?

25 BY MR. WILLIS: Dark won't get here until I
26 see the bridge.

27 BY MR. HOOPER: Yes, we will check that today.
28 Now, we have got an order on the Board Minutes that
29 makes mention of the fact that there is information

392

35

1 brought by the general public, by any employee of the
2 county, to the effect that a bridge is deficient, that
3 will be checked on and that road closed immediately for
4 evaluation by the engineer.

5 BY MR. ARANT: Don't close the road.

6 BY MR. HOOPER: You don't want it closed,
7 Buddy?

8 BY MR. ARANT: No.

9 BY MR. HOOPER: But Jack will be up there
10 this afternoon to evaluate it.

11 BY MR. HEY: I have got two questions that
12 come to mind. In the E911 budget, there is \$77,100.00
13 for telephone expenses. I am just wondering why that's
14 so high.

15 BY SHERIFF BANKS: That's a piece of equip-
16 ment that South Central Bell rents to E911.

17 BY MR. HEY: It is?

18 BY SHERIFF BANKS: Yes. That's to ---

19 BY MR. BRUMFIELD: Ties everybody together.

20 BY SHERIFF BANKS: It ties everybody together
21 and all of it. That makes the whole thing work. I
22 don't think that go down. That's going to be there
23 every year.

24 BY MR. SANDERS: You couldn't rely on one
25 vendor from another vendor as between the monies they
26 estimated. We tried to pick the most reliable and hope
27 they didn't do us too bad. It is going to be there.

28 BY MR. HEY: Is it all equipment cost or is
29 some of it line?

1 BY MR. SANDERS: Some of it is line.

2 BY MR. ARANT: While you are speaking about
3 911, I would like to voice a complaint. I believe
4 you assessed a millage to supply to the whole county.

5 BY MR. BRUMFIELD: What that was, the way the
6 law is written on that, you can collect \$1.00 from
7 every residential user and \$2.00 from every business
8 user. And I sort of have an idea about what your
9 complaint might be, because I know where your house is
10 located. And I tell you, I would probably feel that
11 way, too.

12 BY MR. ARANT: I call 911 and they connect me
13 with the Indianola Sheriff's Department and they don't
14 know me. I called Ricky's office and the deputy wanted
15 to know, "Are you sure you live in Leflore County?" I
16 told him, "Yes, I have been living here forty-five
17 years. I am sure I live in Leflore County." But I
18 have got a different prefix from everything else in the
19 county, but that's the way it has been for forty-five
20 or fifty years.

21 BY SHERIFF BANKS: It is about four houses
22 right there, isn't it?

23 BY MR. ARANT: Uh-huh. It is more than that,
24 it is six or eight houses in there.

25 BY SHERIFF BANKS: 911, I don't guess they
26 can, but they should fix that for those calls to ring
27 here. I don't care what kind of prefix it is, they
28 should.

29 BY MR. ARANT: That's what I thought.

1 BY SHERIFF BANKS: Yes.

2 BY MR. BRUMFIELD: We can sure ask them about
3 that. I had heard that you had that unique problem and
4 that would be a great source of aggravation to me, too.
5 I would feel the same way.

6 BY SHERIFF BANKS: Sunflower County could
7 probably get there quicker than we could.

8 BY MR. ARANT: Not on a bet. It is the same
9 distance from Indianola as it is from Greenwood.

10 BY MR. HOOPER: I would love you to get on
11 the best system in the state, because that's what the
12 telephone company says this one is.

13 BY MR. ARANT: I am for that. I hope I never
14 need it again.

15 BY DR. STEWART: Any other questions.

16 (No response)

17 BY MR. SANDERS: If there aren't any, then I
18 will move to adopt.

19 BY DR. STEWART: There is a motion for adop-
20 tion of the budget.

21 BY MR. HOOPER: Second.

22 BY DR. STEWART: We have a motion and second
23 for adoption of the budget. All those in favor say
24 "Aye".

25 (Unanimous response from Board members)

26 BY DR. STEWART: The "Ayes" have it. The
27 motion is carried.

BETWEEN LEFLORE COUNTY AND TOWN OF MORGAN CITY,

FIRE DEPARTMENT, PHILLIPSTON VOLUNTEER FIRE DEPARTMENT

**RURAL FIRE PROTECTION AGREEMENT
BETWEEN
LEFLORE COUNTY BOARD OF SUPERVISORS
AND
TOWN OF MORGAN CITY**

The LEFLORE COUNTY BOARD OF SUPERVISORS and the TOWN OF MORGAN CITY recognizing the necessity and wisdom of cooperation in fire protection, do hereby agree to assist each other as described below.

The Board of Supervisors has begun a process of improving fire protection for rural residents. A part of this protection will be provided by county-owned volunteer fire departments located throughout the rural areas in Leflore County. The Board recognizes that rural residents who live within five road miles of a municipal fire station may be served most efficiently by that station. The Board also recognizes that other residents living beyond the five mile limit may also be served by that municipality. Because the Board has an interest in providing effective fire protection through the use of municipal fire departments, the following agreement is reached:

The TOWN OF MORGAN CITY agrees to respond to fires in the county whose location are within five road miles of the fire station. It is understood by the Board that the town has a first responsibility to protect municipal residents. Therefore, the Board recognizes and agrees that the town shall respond to county fires as manpower, equipment available, and other factors permit. The town further agrees to respond to rural fires beyond the five mile limit as the town feels is necessary and proper. The town makes no representation that the municipal facilities and manpower to be provided are adequate for the intended purpose. It is recognized by both parties that the nature of the volunteer fire service is to respond with the facilities at hand and to do the best job possible under the conditions at the time.

In return for this rural service by the town, the Board agrees to provide the sum of money necessary "solely for the purposes of defraying training expenses and for the purchase and improvement of, or for pledging as security for a period of not more than ten (10) years in the financing of the purchase and improvement of, fire fighting

equipment and initial capital construction or improvements," and "to provide fire protection in the unincorporated area" as provided by state law. (H.B. 607, reg. sess. 2989)

Ms. Sara Kenwright
Leflore County Tax Assessor/Collector

Subject: Letter of Resignation

Dear Ms. Kenwright,

Please accept this my written Letter of Resignation as advance notice of my intent to terminate my employment in the Mapping Department. With this letter dated August 31, 1994, I give the required ten working days of advance notice. My last day of work will be September 14, 1994.

I appreciate the opportunity to work for you. The Leflore County Mapping Department is a well-organized department, and the work has been a pleasure. I am not leaving this position as a result of any action resulting from my employment with the county. Instead, I am leaving because my former employer of many years has made me an offer which I find that I cannot refuse.

Over the next two weeks, I hope I can assist you in every way to train any personnel and to accomplish as much as possible to leave the Mapping Department up-to-date for the coming year.

Respectfully,

6. Security must be maintained at the facility site to prohibit unauthorized access and disposal. Access to the site shall be secured or locked when the site is closed and when no attendant is on site.
7. The service area of the facility shall be consistent with the service area listed in the approved Leflore County Solid Waste Management Plan. Solid waste generated by areas not within the approved service area shall be prohibited from disposal, unless specifically approved by the Commission on Environmental Quality.
8. Asbestos containing material shall not be accepted for disposal, unless an operating plan and demonstration of compliance with EPA NESHAP regulations 40 CFR 61.153 and 61.154 (reporting and standards for active waste disposal sites) is submitted to and approved by the Department.
9. Infectious medical wastes, as defined by the Mississippi Department of Health, generated by established medical facilities, shall be prohibited from disposal unless such wastes have been satisfactorily rendered non-infectious and placed in special bags or other appropriate packages.
10. Vehicles entering the facility shall be operated and maintained to prevent loss of liquids or solid waste material. Vehicles failing to meet this requirement, after one warning to the owner or driver, shall be refused acceptance at the site.
11. Burning or smoldering wastes accepted at the site shall be extinguished in an area separate from the active disposal area and shall not be unloaded into the active area until all smoldering debris has been adequately extinguished. Such wastes, however, shall not be left uncovered at the close of operations for that day.
12. Should an accidental fire occur, the operator shall immediately take action to extinguish the fire and shall notify the Department as soon as possible.
13. All solid waste shall be covered each day before the close of operations, or more frequently, if necessary, to control disease vectors, fires, odors, blowing litter, and scavenging. Cover shall consist of at least six inches of earthen material or an alternate approved method of cover. An alternate method of cover may be used if a specific description and plan of operation is submitted to the Department, and written approval is obtained.

14. Litter and scattered debris on the landfill area and along the property access roads shall be collected at the end of every operating day and returned to the active disposal area.
15. Small portions of earthen cover shall be removed from low areas of each lift in order to facilitate downward movement of leachate to the collection system. The amount of soil removed shall be minimized as much as possible.
16. Filled areas of the landfill, which will not receive waste within 30 days shall receive an intermediate cover of twelve inches of earthen cover. An alternate cover system may be approved by the Department.
17. Upon completion of each subcell, final cover shall be placed, in accordance with state regulations and the approved plan. Notice of intent and closure certification shall be accomplished for each subcell, in accordance with state regulations.
18. Closure activities of each subcell shall begin no later than 30 days after the date on which the subcell receives the known final receipt of wastes or, if the subcell has remaining capacity and there is a reasonable likelihood that the subcell will receive additional waste, no later than one year after the most recent receipt of waste. Extensions beyond the one year may be granted by the Department in accordance with state regulations.
19. Closure activities of each subcell must be completed within 180 days following the beginning of closure. Extensions may be granted by the Department in accordance with state regulations.
20. The condition of daily, intermediate, and final earthen cover shall be routinely inspected by landfill personnel during the operation of the facility. Erosion, cracks, ponding, leachate outbreaks, and similar problems shall be promptly repaired.
21. Solid waste shall not be placed on top of or within 50 feet of the stormwater plastic cover.
22. The permittee shall include in each annual report a signed statement from the landfill site manager certifying that the stormwater plastic cover was properly removed from appropriate areas during the report year.

Page 7 of 9
Permit No. SW042001430

23. The landfill shall be constructed, operated, and maintained with berms, ditches, or other means such that uncontaminated surface water is directed around and away from the landfill area. Likewise, each cell shall be constructed and maintained to direct uncontaminated surface water around and away from the active disposal area. Uncontaminated surface water shall be diverted to an onsite sedimentation pond.
24. The sedimentation pond shall be constructed and maintained to collect and control at least the water volume resulting from a 24 hour, 25 year event storm. Periodic dredging shall be conducted to maintain proper elevations.
25. Surface water contaminated by contact with solid waste and surface leachate flowing from filled areas of the landfill shall be collected and disposed as leachate. Surface leachate and contaminated surface water shall not flow offsite of the landfill property.
26. Leachate collection systems shall be cleaned, maintained, and pumped as necessary to properly manage leachate collection. The depth of leachate over the liner shall not exceed 30 cm. Measurements of leachate head shall be made daily. Records shall be kept of daily measurements, quantities pumped, cleaning, maintenance, any analysis and method of disposal.
27. Leachate shall not be recirculated back into the landfill or solidified and placed in the landfill, unless a plan of operation is submitted to and approved by the Department.
28. Groundwater monitoring shall be conducted at the facility in accordance with state regulations. Monitoring shall be conducted semiannually, unless otherwise directed by the Department, according to the following schedule:

<u>Monitoring period</u>	<u>Report Due</u>
January - June	August 31
July - December	March 1 (of the following year)

Samples may be taken at any time during the monitoring period; however, all sampling events shall be at least four months apart. The following reports and records shall be retained in the operating record, and a copy shall be submitted to the Department according to the schedule above:

EMERGENCY ORDER AUTHORIZING CHANCERY CLERK TO NEGOTIATE
CONTRACT TO PROVIDE FOR COVER MATERIAL SUFFICIENT TO
CLOSE LANDFILL AT ITTA BENA

BE IT REMEMBERED that this Board of Supervisors has heretofore discontinued usage of the Solid Waste Landfill at Itta Bena, Mississippi. There remains unfulfilled the requirement of providing proper cover material of sufficient depth and density to meet state and federal specifications. Thus far, Leflore County trucks and employees of the Unit System have delivered a substantial quantity of material to said site. The Board of Supervisors instructed the county engineer to make an estimate of the amount needed to fulfill Leflore County's requirement of soil for the site in order that closure may be accomplished. Inclement weather has hampered movement of materials to some extent, in addition, priority projects, in addition to this closure responsibility, have competed for human resources and equipment.

With time now running short and a mandated deadline approaching, the clerk recommended to the Board that an emergency be declared and that he be authorized to negotiate a contract to assist in furnishing cover material sufficient to meet closure requirements at the Itta Bena Landfill.

On motion made by Supervisor Wolfe, duly seconded by Supervisor Hooper, and unanimously approved by the Board, it is hereby ordered that an emergency exists in regard to meeting state and federal mandated deadline for closure of the Landfill at Itta Bena, it is further ordered that the Clerk be, and he hereby is, authorized to negotiate for the acquisition, hauling, and any other costs and expenses to Leflore County incidental thereto, as necessary to provide for transporting and placing sufficient soil cover material at the Landfill at Itta Bena in order that said landfill might be properly closed in accordance with regulations pertaining thereto.

So ordered on this the 12th day of September, 1994.

WITNESSETH:

WHEREAS, the purpose of this agreement is the establishment of a multi-jurisdictional drug enforcement task force in the five-county area composed of Claiborne, Grenada, Holmes, Leflore, and Humphreys counties to provide additional personnel, equipment, facilities, personnel training and supplies for more widespread apprehension and prosecution of persons who violate the Mississippi Uniform Controlled Substances Law (hereinafter "MUCSL") relating to the manufacture, possession, sale and transfer of controlled substances; and

WHEREAS, the governing authority in each of the respective counties of Claiborne, Grenada, Holmes, Leflore, and Humphreys is the Board of Supervisors, and each Board, pursuant to MCA (19-25-13 (Supp. 1987), has the authority and duty in law of adequately funding the operation of the office of Sheriff, who is charged by MCA (41-29-109 (Supp. 1987), with enforcing the MUCSL; and

WHEREAS, the governing authority in the municipality of Itta Bena is the Board of Aldermen, and the governing authority in the municipalities of Greenwood and Grenada is the municipal council, and each Board and Council, pursuant to MCA (21-21-3 (1972), has the authority to adequately fund a police force which is charged by MCA (41-29-109 (Supp. 1987), with enforcing the MUCSL; and

WHEREAS, the parties hereto find that violations of the MUSCL within their respective jurisdictions are such that a joint and coordinated law enforcement effort will enhance the exercise of

626

their police power and their duty to protect the public from such criminal activity at the least cost to the taxpayers; and

WHEREAS, federal funds have been made available through the Anti-Drug Act of 1986, which law requires a cash match of 25% of the total project cost and can be shared equally among the counties and cities which are parties to this agreement, with additional annual funding contingent upon the availability of federal funding; and

WHEREAS, the parties hereto find that the joint effort authorized by this agreement will make the most efficient use of their powers by enabling them to cooperate on a basis of mutual advantage and thereby provide a vital service that will best accord with the geographic, economic, and population factors which influence the needs and development of each community, and

WHEREAS, the parties hereto state their belief that such an efficient, coordinated law enforcement effort may best be accomplished through a formal agreement pursuant to the authority of the "Interlocal Cooperation Act of 1974," codified as MCA ((17-13-1, through -17 (Supp. 1987).

NOW, THEREFORE, in consideration of the foregoing and the mutual covenants and agreements herein set forth, the Boards of Supervisors of Claiborne, Grenada, Holmes, Leflore, and Humphreys counties; the Board of Aldermen of the City of Itta Bena; the municipal councils of the cities of Greenwood and Grenada; the sheriffs of the above named counties and the chiefs of police of the above named cities hereby agree as follows:

1. All parties signatory to this agreement are authorized to enter into same pursuant to the hereinabove referenced "Interlocal Cooperation Act of 1974."

This agreement shall take effect upon the date of approval by the Attorney General of Mississippi and terminate on September 30, 1995. This agreement may be renewed by the parties hereto; provided, however, that any modification of this agreement before renewal shall be approved by the

and filing w/ Chancery Clerk Sec. 7 State

said Attorney General before implementation of the modification.

2. The purpose of this agreement is the establishment of the North Central Narcotics Task Force which will operate in the five-county area comprised of Claiborne, Grenada, Holmes, Leflore, and Humphreys counties to more effectively and efficiently enforce the criminal laws of the State of Mississippi regarding controlled substances for the reasons and in discharge of the duties set forth in the preamble to the agreement.

3. (a) There is hereby established and created by this agreement a separate legal and administrative entity which shall be called the North Central Narcotics Task Force. This task force will be composed of six (6) full-time, permanently assigned undercover investigators, one of whom will be designated the Supervisory Operations Officer who will, in addition to his other duties, oversee day-to-day task force operations from the headquarters office which will be established at the central location in Itta Bena, Mississippi, and who will maintain accurate records on all task force activities, intelligence information and expenditures of funds. This Supervisory Operations Officer

628

shall be under the direction and supervision of the control group hereinafter discussed. The investigators shall concentrate on violations of the MUCSL which constitute felonies. Any of the parties to this agreement may place on duty with the task force additional investigators, but must continue to be responsible for the salary and expense of such person(s); moreover, any person so assigned will be under the operational control of the control group.

- (b) As to its powers and authority, the North Central Narcotics Task Force shall have only that power and authority granted the sheriffs and cities by statute in the enforcement of the criminal laws regarding controlled substances, and the investigators shall exercise only the power and authority authorized by the control group. The task force will be an independent unit from the police and sheriffs' departments with which it cooperates in the five-county area and will operate an intelligence function separately from that of other departments and agencies; however, exchange of intelligence information will be conducted among the task

629

force and local, state and federal law enforcement agencies.

- (c) A control group will employ and assign personnel, set policy for task force operations, determine fund distribution and prioritize targets for investigation. The membership of the control group will consist of the sheriff of each of the five (5) participating counties and the police chief of each municipality that pays a full equal share of the program cash match as specified in paragraph 6(b) of this agreement, each of whom will have one (1) vote.
 - (d) The specific statutory authority vested in each party to this agreement is MCA (19-25-13 (Supp. 1987) for the Boards of Supervisors; MCA (41-29-109 (Supp. 1987) for the sheriffs and chiefs of police; and MCA (21-21-3 (1972) for the municipal governing body for each city however designated.
4. Each county and city governing authority as defined by MCA (17-13-5 (Supp. 1987) that is a party to this agreement has approved the entering into this agreement by resolution entered on its minutes. This agreement shall be submitted to the Attorney General of Mississippi for approval, and, when approved, a copy

630

shall immediately be filed with each of the following: the Chancery Clerk of each of the counties wherein a party to this agreement is located; the Secretary of State; the state Department of Audit and the Office of Criminal Justice Planning.

5. Each party hereto agrees to continue its participation in this project throughout the agreement period specified in paragraph 1., and further agrees to give notice in writing to all other parties, forwarded by registered mail, return receipt requested, at least ninety (90) days before September 30, 1995, of any intention not to renew this agreement. No amendment to this agreement shall be effective unless it is set forth in writing and adopted by all parties hereto in the manner provided by law for each.
6. (a) The purchase, identification and disposal of any and all personal property and the disposition thereof upon termination of this agreement shall be in accordance with standards established by the Governor's Office of Federal-State Programs (hereinafter "Federal-State Programs").
- (b) The North Central Narcotics Task Force will be financed by a grant awarded under the State and Local Narcotics Control Assistance Program established by the federal Anti-Drug Abuse

631

Act of 1986, Public Law 99-570. The amount initially budgeted for this project is \$323,687.00 seventy-five percent (75%), or \$242,765.00, of which will consist of federal funds obtained under said grant, and twenty-five percent (25%), or \$80,922.00, of which will consist of a cash match from local sources; i. e., the local governing authorities party to this agreement and asset forfeiture funds. The counties of Claiborne, Grenada, Holmes, Leflore, and Humphreys and the municipalities of Greenwood, Grenada, and Itta Bena are specifically obligated and responsible for an equal share of the hereinabove specified cash match during the initial agreement period in any amount not to exceed Seven Thousand Seven Hundred Dollars (\$7,700.00) per governing authority. However, this amount may be reduced where funds are received through seizure and forfeiture of property or by sharing with federal agencies in seized drug assets. As subgrantee for said grant, the City of Greenwood will serve as the project administrator and will provide administrative

632

services under this agreement, and the City Clerk thereof, pursuant to MCA (17-13-9 (d)(Supp. 1987), is designated to receive, disburse, and account for all funds according to applicable laws, and according to pertinent regulations and guidelines specified by Federal-State Programs. The project administrator shall invoice each governing authority for its equal share of the hereinabove stated cash match. So that funds will be available for initial operating and start-up costs, the project administrator shall invoice each county and municipal party hereto promptly after approval of this agreement by the Attorney General, and the said parties shall thereafter promptly pay its pro rata share to the project administrator.

- (c) After the assessment of administrative fees, fifty percent (50%) of all assets forfeited by the court per case will become the property of the North Central Narcotics Task Force. The remaining assets will be equally divided among the other entities involved per case. The division of forfeitures will be in

compliance with all state and federal guidelines.

- (d) In the event of future unforeseen operational costs and expenses which cannot be covered by the grant or by available funds generated by the task force, upon the recommendation of the control group and if determined by the parties to be reasonable, necessary, and related to the purposes of this agreement, such costs and expenses shall be divided equally among and thus paid by the governing authorities party to this agreement.
7. Nothing in this agreement shall be construed to abridge any of the rights, privileges, and immunities enjoyed by the governmental entities and public officials which are parties hereto, and this agreement expressly invokes upon the North Central Narcotics Task Force all such rights, privileges, and immunities enjoyed by the parties hereto.
8. If any part, term, or provision of this agreement shall be held illegal, unenforceable, or in conflict with any law of a federal, state, or local government having jurisdiction over this agreement, the validity of the remaining portions or provisions shall not be affected thereby.
9. Any future reference to this agreement may be designated "The North Central

634

Narcotics Task Force Interlocal Agreement
of 1994."

IN WITNESS WHEREOF, the parties hereto have executed this
agreement by their duly authorized representatives with full rights,
power and authority to enter into and perform this agreement.

AMENDMENT TO INTERLOCAL AGREEMENT

THIS AGREEMENT made this the 22nd day of June, 1994, to the Interlocal Agreement made on the 22nd day of June, 1994, among the Boards of Supervisors of Claiborne, Grenada, Holmes, Leflore and Humphreys counties; the Board of Aldermen of the City of Itta Bena, the municipal councils of the cities of Greenwood and Grenada; the sheriffs of the above named counties and the chiefs of police of the above named cities.

THE INTERLOCAL AGREEMENT is amended as follows:

1. For purposes of clarification concerning the agreement in general and concerning paragraphs 3(a), (b), and (c) in particular, the personnel assigned to the task force are not employees of the task force, but rather remain employees of the respective governing authority or sheriff that employed them. They have simply been assigned by their employer to the task force. Although paragraph 3(a) established the task force as a separate administrative entity, that does not make it an independent governing authority. Rather it is, in essence, akin to a department or division of the counties and municipalities party to the agreement.
2. Concerning the agreement in general and with particular reference to paragraphs 3(a) and 6(b), it must be clarified and understood that the task force funding provided under the agreement cannot be accomplished by direct payments or contributions to the task force unit. Rather, such funding support must be

accomplished in the form of a lawfully budgeted commitment of funding reflected in the budgets of the governing authorities party to the agreement, to be disbursed only upon proper order of the respective boards for claims and payroll duly and lawfully considered in accordance with its established budget, claims and purchasing procedure as required by state law and State Audit Department rules and regulations. In essence, the task force unit is funded and supported as are other city and county departments; not as a separate and independent entity. The federal portion of the task force funding will, as suggested in paragraph 6(b), be handled through the City of Greenwood as the project administrator. The sheriffs, the chiefs of police, the unit commander, the unit employees, and the unit itself do not have any authority to receive, handle, or disburse any funds, except petty cash funds authorized by the governing authorities party to the agreement, and then only in accordance with State Audit Department rules and regulations. The governing authorities for the City of Greenwood as the project administrator, and the Greenwood City Clerk, as the official designated by agreement pursuant to Section 17-13-9(d) shall account for the respective funds obligated to the task force unit through the established budget, claims and purchasing procedure as set out in state law and State Audit Department rules and regulations.

3. Concerning the agreement in general, and with specific reference to paragraphs 6(a) and 6(b), it must ^{be} ~~have~~ understood that the task force unit does not have authority to

640

own or hold assets independently of the governing authorities party to the agreement. Rather, the party governing authorities own assets which are, per this agreement, made available for us by the task force. Therefore, in addition to the provisions set out in paragraph 6(a) [NOTE: the responsibilities alluded to here now fall under authority of the Bureau of Narcotics, State Office of Highway Safety] the task force inventory must be provided to each governing authority for placement on the respective fixed assets inventory as set forth and required by State Audit Department and regulations. The Supervisory Operations Officer or task force commander and the executive officer(s) of each governing authority shall be personally liable and liable on their individual bonds for any missing property since such property represents assets of the respective governing authorities party to the agreement.

4. Concerning paragraph 6(c) of the agreement, funds and property generated as consequence of criminal forfeiture and/or seizure must be handled and accounted for in the manner set forth in State Audit Department rules and regulations, keeping in mind, as stated in number two (2) hereinabove, that the task force unit itself does not have authority to directly receive, handle or expend monies, except petty cash per State Audit Department rules and regulations. The task force unit is not authorized to directly receive forfeited assets or funds. Of course, the respective governing authorities party to the agreement that do receive such assets and/or funds may agree

641

to obligate any or all such income to the benefit and support of the task force, or make such forfeited property available for the task force's use, but they must do so via their respective budgets and asset inventory as noted above.

5. Regarding paragraph 6(d) of the agreement, the parties to the agreement may amend the level of funding for the task force via the normal budget amendment process provided by law. It must be clearly understood, however, that task force members and the task force itself are not authorized by law to expend or obligate any funds whatsoever, except, as noted above, petty cash in accordance with State Department of Audit procedures. In addition, state law expressly prohibits governing authorities to make expenditures or obligations outside of available funds and previously approved budgets. Paragraph 6(d) may not be construed to provide such authority for either the task force or the governing authorities party to the agreement.

IN WITNESS WHEREOF, the parties hereto have executed this amendment to the Interlocal Agreement by their duly authorized representative with full rights, power and authority to enter into and perform this amendment to the Interlocal Agreement.
